

THI (Truth, Honor & Integrity) is a group designed with the sole purpose of improving life and humanity.

We operate under the premise of creating solutions for the benefit of all.

We recognize our world is a mess and it cannot be fixed by the same methods and mindsets that created the problems in the first place.

We have come together to make a new blueprint for how humanity and the world can operate for the prosperity and wellbeing of all of us.

ARE YOU READY FOR SOLUTIONS?

THE NEW BLUEPRINT FOR HUMANITY

Solutions for:

Housing
Healthcare
Covid

And 27 more!

A comprehensive overview
of the issues facing this country
and the world.

IT'S TIME FOR:

SOLUTIONS!

HOUSING

Adequate shelter is a human right. All of us, especially families, need affordable homes: affordable not only to buy or build, but to maintain and repair. Even in wealthy countries, far too many lack a proper home because of high rents, high interest rates, high taxes, and the mortgage and “market-value” systems that keep a home beyond the reach of a growing number of people. In fact, a recent report warns that only the richest 25 percent of Canadians will be able to afford a single-family home, and even condos have become unaffordable.

The New Blueprint For Humanity Housing Solution details means to enable all to have a decent home. Further, the Essential Services Solution proposes what is known as the dacha system that enables individuals and families to not only have a home, but to grow at least a portion of their own food.

And the Tax Solution offers an alternative to the current system that impoverishes the majority while providing little actual benefit to the public.

HEALTHCARE

Healthcare has become increasingly expensive as government-mandated insurance paid through the income-tax system covers fewer products and services that in turn are rising in price. Moreover, it can be demonstrated that the entire medical system exists to profit from sickness and injury rather than to prevent or cure health issues. And governments have enacted statutes that make the manufacturers of vaccines unaccountable for the harm they cause.

In the Blueprint are 12 solutions to improve healthcare in terms of affordability and effectiveness.

COVID

Daily now, more and more evidence surfaces to prove that covid was a fraud designed to harvest huge sums of money to profit the pharmaceutical and medical industries, media scaremongers, the technology companies selling surveillance equipment and digital “passports,” and the banking corporations behind all three. Worse, it has become clear that the lockdowns have had a devastating psychological and economic effect, and the medications, masks, and vaccines have actually caused injury and death.

The New Blueprint For Humanity lays out 24 solutions to mitigate damage to the extent possible, make those who promoted this fraud accountable, and prevent such a crime in future.

WE THE PEOPLE

The fact is that we, the public, are all as responsible for the mess we are in as those who have infiltrated every industry and every level of power, effectively controlling the world from behind the scenes for generations, in order to enrich themselves.

Yes, we have been lied to by those we should have been able to trust, but we fell for the lies. We chose not to investigate absurd claims of media, governments, and self-proclaimed experts, and we chose to mistrust and even rebuke those who did the research and warned us. We chose to let others do our thinking for us and chose to comply with the dictates of those who benefit from our suffering. As a result, many have paid the ultimate price, and the fallout from medical malpractice and economic meltdowns is not over. Time to pay the piper: Time to come together and to replace the broken systems with new ones that work for us all.
