THI (Truth, Honor & Integrity) is
a group designed with the sole purpose
of improving life and humanity.

We operate under the premise of creating
solutions for the benefit of all.

We recognize our world is a mess
and it cannot be fixed by the same methods
and mindsets that created the problems
in the first place.

We have come together to make a new
blueprint for how humanity and the world
can operate for the prosperity
and wellbeing of all of us.

ARE YOU READY FOR SOLUTIONS?

THE NEW BLUEPRINT FOR HUMANITY

Solutions for:

Oil & Transport
Tax
Government
And 27 more!

**A comprehensive overview
of the issues facing this country
and the world.**

IT'S TIME FOR:

S O L U T I O N S !

OIL AND TRANSPORT

The earth's resources belong to all of us equally, not just to the few who have for generations fraudulently claimed the right to own everything and who have denied even the basics of life to many people.

Oil is not a "fossil fuel." It is produced within the earth by anaerobic microbes as their waste, a self-replenishing resource that can meet the needs of the entire planet, once artificial controls on price and availability of petroleum and associated products are removed.

The New Blueprint For Humanity lays out six specific solutions to enable countries worldwide to benefit from this natural resource and to enable the oil and transport industries to continue to provide employment and to fuel economies. Let's keep on truckin'.

TAX

While every community, region, and country needs to fund useful services and projects for the benefit of inhabitants, the reality has been that taxpayers are not funding our own needs but the greed of The Crown that, unbeknownst to most, owns the tax collection agencies worldwide.

We do not need the long list of taxes on everything from income to "carbon" in a system that penalizes productivity and keeps most people at or below subsistence level.

The Blueprint proposes a solution to provide sufficient funds for collective needs without impoverishing the people.

GOVERNMENT

Governments worldwide have secretly been corporatized, many registered in the American state of Delaware, and their shares are sold on stock markets. Even their services are farmed out, at great cost to taxpayers, to non-governmental organizations and agencies that are also corporations ultimately controlled by The Crown, that is, by the Rothschild family (not by any monarchy).

In ***The New Blueprint For Humanity*** you will find no less than fifteen solutions to this global problem, all cost effective as well as easily achievable by people willing to stand together to take back the rights and freedoms that have been eroded decade by decade, and to create a new system of governance by the people rather than by oligarchs and their cronies, and for the benefit of all the people.

WE THE PEOPLE

The fact is that we are all as responsible for the mess we are in as those who have infiltrated every level of power and influence and effectively dominated the world from behind the scenes.

Yes, they sometimes took power by force, but for the most part they use deception and divide-and-conquer tactics against us, and seducements of status, crumbs from their table, or just conveniences like digital banking that hide snares to entrap us.

We fell for the lies. We chose to mistrust each other instead of the deceivers. And we accepted crumbs and pats on the head instead of freedom and a real say in how our world is run.

Time to pay the piper**:** Time to come together and to replace the broken systems with new ones that work for us all.
