

Document from telegram Disclosure HUB:

I am writing to express my extreme disappointment and frustration with the recent actions of your medical practice. I have been a patient of your office for many years, and I have always trusted your doctors and staff to provide me with the best medical care available. However, I was shocked to learn that your office has refused to schedule an appointment for me due to my vaccination status.

As you are no doubt aware, vaccination is a personal choice that should be left up to the individual. It is not the place of a medical practice to force their patients to receive a vaccine against their will. By refusing to schedule an appointment for me, your office is essentially denying me access to medical care based solely on my personal beliefs. More This is not only unethical, but it is also illegal. The American with Disabilities Act (ADA) prohibits discrimination against individuals based on their disability status, and refusing to provide medical care to an unvaccinated patient could be considered a violation of this Law.

Therefore, I am left with no choice but to take legal action against your office. I have consulted with an attorney and will be filing a lawsuit against your practice for discrimination and violation of my civil rights. I am seeking damages for the emotional distress and inconvenience caused by your refusal to provide me with medical care. I hope that we can resolve this matter outside of Court, but if necessary, I am prepared to take this case all the way to Trial. I urge you to reconsider your Policy regarding unvaccinated patients and to schedule an appointment for me as soon as possible.

Sincerely,
[Your Name]
