Yes, Margaret, the War in Israel is Fake

they all were

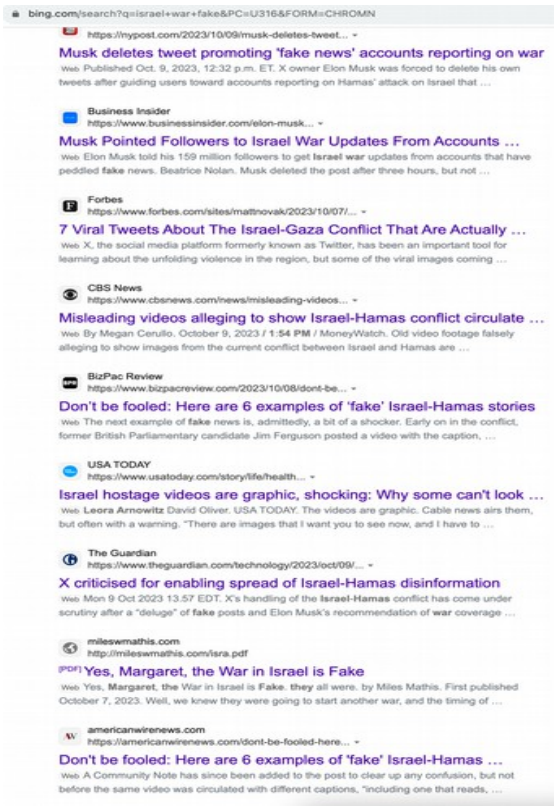
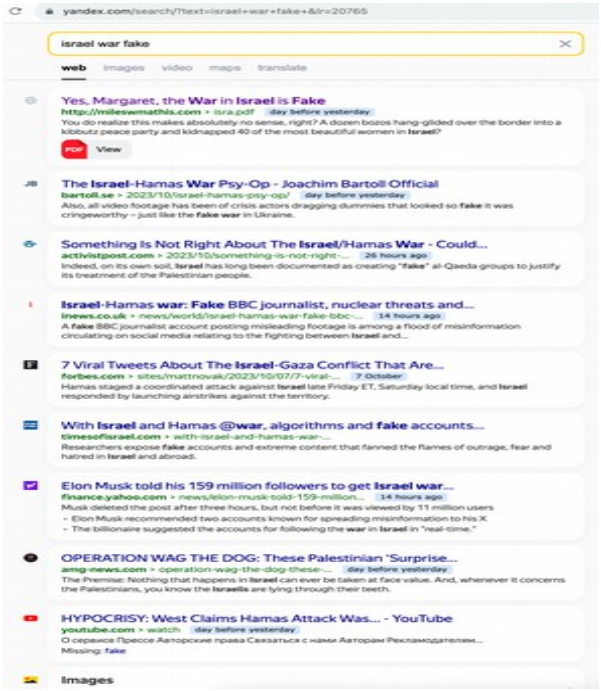
Well, we knew they were going to start another war, and the timing of this one is perfect. Just as Congress stops funding Ukraine, Hamas conveniently flies into Jerusalem on motorized kites. . . because, you know, why not? The Gentiles will believe anything. They could have reported that Hamas rode in on tricycles and no one would have questioned it. Or if anyone did question it, Google would block them. That's what will happen to this paper. In the first minutes it will go to number one and then it will be magically delisted, just like all my other papers.

[**Added October 9**: If you think I am delusional, I can prove it. Google did exactly that, and we know they censored it because the other search engines didn't.



I am listed #9 on page one at Bing for the general search *Israel War Fake*, with no quotes and no mention of me. I picked that search because it is a general search many would use and it is not a direct quote from my title. So it is not skewed to my paper. And if we check page two we find I am outranking MSN at #12. So I am beating MSN at Bing! Also outranking NBC, Yahoo News, AP, CNN, Wikipedia, and the BBC. I am ranked #16 at Duck and #19 at Yahoo. At Yandex this paper ranks #1.



Here's more proof of the war:

Because, you know, you can't fake a smoke plume by burning a pile of wood or something. Or with CGI. Mossad doesn't have that tech.

Here's more proof of the war:

A woman with a baby fleeing a burning pile of leaves. With cops. Wow, I'm convinced. I can hardly witness the carnage. I hope this came with a triggering warning. Here's more proof of the war:

Yeah, that looks totally real. Totally *not* pasted together. And what horrible damage from a missile! It destroyed two entire windows! I like the guy sitting there in the other window, hoping he can catch the next one in his teeth.

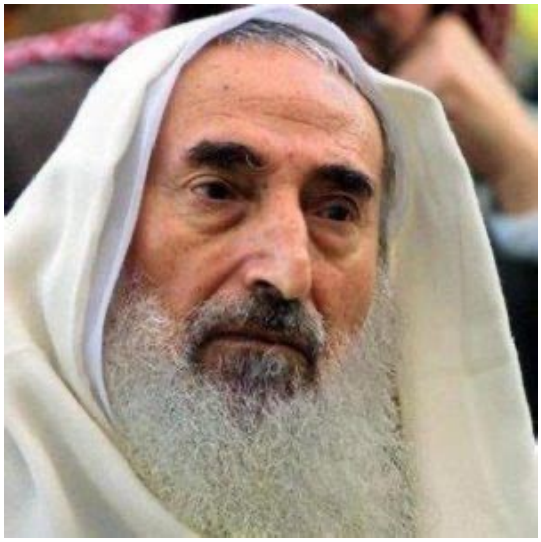
Here's more proof, from a search on “bodies paraded through streets”.

But wait. Are those bodies being paraded through streets, or just some soldiers practicing war games. Don't matter, publish it!

Then we are shown video of some guys in a truck firing weapons. Yeah, so. Are the rounds live or blanks? We don't know, but since this is Israel, Hollywood east, I assume this is the usual Jewish theater.

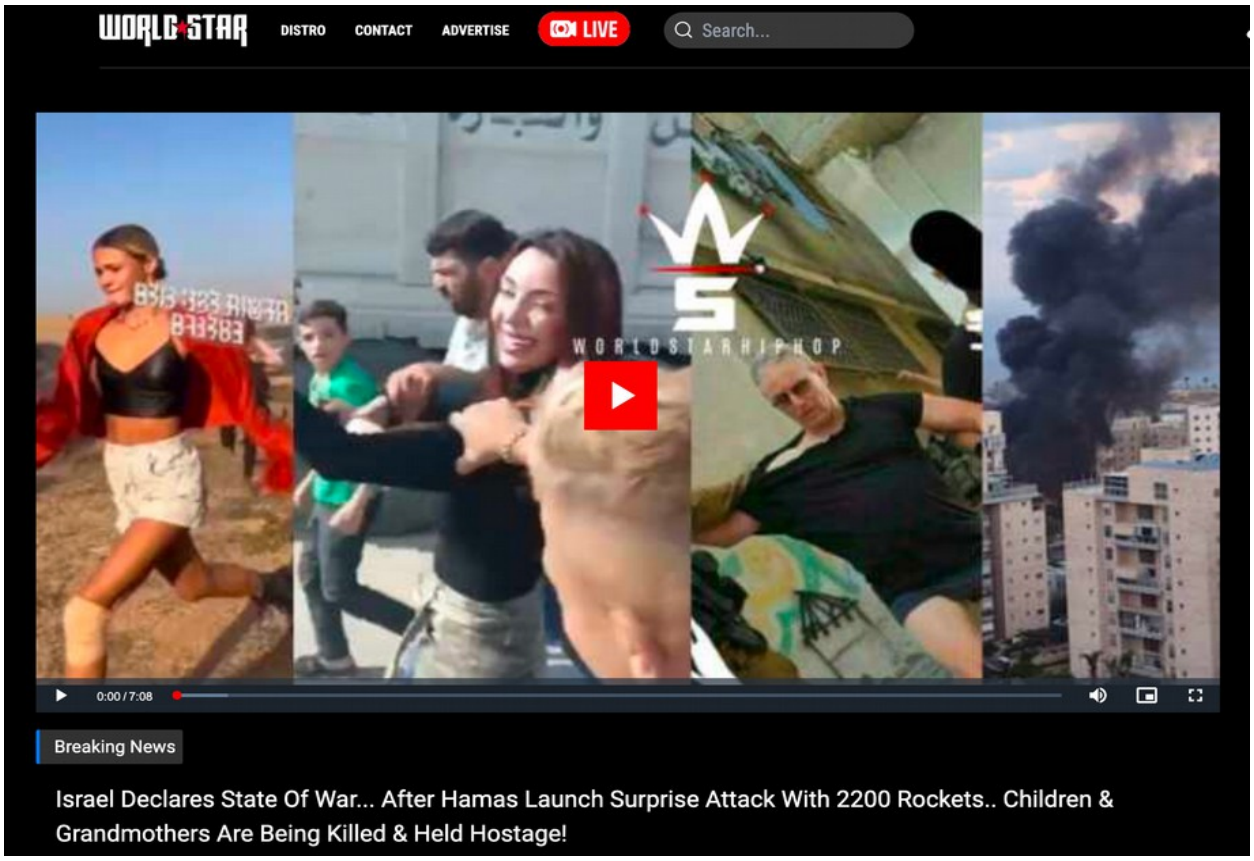
But we knew this was theater without even studying the pictures, since we already know Hamas is fake. Just like the PLO and all the other Arab organizations, it is a front for the Israeli army and was created by Mossad just for times like this. As I say, Jews in turbans.

For more proof of that, I send you back to my 2021 article by my writer-on-the-ground in Tel Aviv, Josh, who quotes mainstream Jewish sources admitting Hamas was created and funded by the Israeli Defense. He reminds us of the alleged founder of Hamas, Sheik Yassin:



You have to laugh. A dead ringer for Jewish actor Christopher Lee. And remember what Gore Vidal taught us: Lee=Levi.

Here's more horrific images from the Israel War:



As you see, the carnage is incredible, with that little hooker wearing a bandage on her knee and running, that lady smiling because she is being groped by an Aryan dude, that guy tilted, and that smoke! Just offscreen children and grandmothers are being killed, held hostage, or made to watch American TV!

UPDATE, Next day: More information continues to arrive, confirming this was all staged. That running girl in the last image was allegedly at a big peace party being held out in the desert—conveniently right on the Gaza border—and the parasailers were attacking this peace concert. Another prominent photo allegedly shows a girl dead in the back seat of a car, killed by a strawberry jam grenade, by the looks of it.

Because that makes sense, right? If you were Hamas, itching for revenge against Israel, you would target a bunch of kids at a peace party, and kill all their model girls:

That's another model girl allegedly killed. Here is what we are being told. See if you find it believable at all.

Hamas raped her, broke her limbs, killed her, they paraded around her naked dead body as they spat on her corpse and yelled "Allahu Akbar".

Yeah, I bet. That's the video from the back of the pickup truck. Except that we are already getting confirmation this was all staged and that she was just an actress flown in for this part. To start with, we find she has an extensive previous photo and video presence online, indicating she is an actress. She has a bunch of spooky tattoos, including snakes, indicating she is bad news. I suspect her name given in the press Shani Louk/Luk isn't her real name. Within 24 hours the internet was littered with poorly written stories about her, like this. These stories appear to have been prewritten by agents who don't know how to write, using AI for help. In these stories, she is anywhere from 22 to 30. Her mother Ricarda Louk is quoted saying she was 22, while her cousin Tom Weintraub is quoted saying she was 30. Weintraub is identified as both male and female, as Tom and Tomasina.

And another problem. I have just looked at dozens of photos and videos of Shani Louk posted online, and I don't see a match to the death photo. We are told friends and family identified her by the leg tattoos, but Louk's leg tattoos go all the way around her leg, and are dark and obvious.

In the video, the tats looked CGI'ed in later, and they are blurry, light, and don't go all the way around the leg. If you have the stomach to look more closely, you see why this is: that thing in the film isn't a person, it is a dummy made to look like Louk with dreads. All the limbs are bent backwards like they are rubber—which they are. As usual, we can't see her face, so there is no way to truly identify her. To answer that, we are told all her limbs were broken by these guys, but that isn't how broken limbs look. That is how rubber dummy limbs look. If these guys had completely broken her knee joints, you would see bones poking out and bruises and blood. All you see is pristine rubber knees. If you don't believe me, ask your surgeon if that looks real.

Plus, remember this recent paper, where I showed you how realistic these female mannequins/sex dolls have become. In a blurry video like this, you literally could not tell the difference.

Here's another problem no one is mentioning. This video had to have been shot by Hamas, but there is no way those guys are going to appear by face in video and then allow it to be posted online worldwide. If any of this were real, it would just be asking Mossad to find you, torture you, and kill your whole family, including all pets. So all these guys are also actors. This whole thing was staged.

Israel has now released the names of 42 of these young female models/actresses that are supposedly missing:

Not surprisingly, several of them are Kohens. Even stranger, the site posting them, voiceofeurope.com, has since scrubbed 9 of them, including the Kohens, taking us down to. . . 33. If that is because they were already found safe, it means 1/6th were found safe in the first few hours, meaning they weren't too careful compiling this list. What are the odds the others will be found safe in the next few hours, or be found working for Mossad or Hollywood?

You do realize this makes absolutely no sense, right? A dozen bozos hang-glided over the border into a kibbutz peace party and kidnapped 40 of the most beautiful women in Israel? So how did Hamas get those girls out of there and back across the border? The border was tight on the way in, requiring they come in silently by air, but then they could noisily drive their pickups full of dead girls back over the border? Where did the pickups come from? Did they bring those in on kites, too? Anyone buying this story is braindead.

Despite the obviousness of this fake, everyone on both sides in the US and worldwide is selling it as

real, including Trump, David Icke, RFK, Lara Logan, AOC, and all the rest. No prominent person is questioning it. None of them can spot moulage or a rubber girl. Perhaps most surprisingly, the Dems are actually taking the side of Hamas. Why on earth would they do that? Because it is part of the purposeful tanking of the Democratic Party, something I have been telling you about for years now. The Dems are purposely doing everything wrong now, and this is just one more example.
