

March 31....Mind Control Programs

On behalf of all Humanity of Midgard Earth, we now recognize, become aware of, block and remove all programs, manipulations and agendas of mind control, programming and frequencies that have been and are currently controlling any and all people. Any attempts to dominate, manipulate, create divisiveness, disengage people through isolation/"social" distancing, hive minded/group thinking, and implanting thoughts and/or emotions that are not our own with the outcome of disorienting and controlling our actions, that are not for the highest good of humanity, are now permanently and completely stopped. We now block, stop and render all negative and dark manipulations useless on all frequencies, timelines and planes- past, present, future and out of time. All control tactics targeted against humanity which have malevolent intentions are now deflected and returned to those agents which are knowingly or unknowingly engaged in these attacks.

Humanity now has a healthy and balanced awareness of these control agendas which allows for instant detection of all attempts to coerce or manipulate, including, but not limited to mind control, isolation and or inciting violence and/or war. This awareness spreads throughout humanity and a greater understanding of the lies and actions taken to control Humanity spreads to all. Humanity, from this time, space and frequency through the All, now states, affirms and commands an immediate and complete cessation of all of the aforementioned manipulations.

We the people are now ready, willing and able to assume responsibility, accountability and sovereignty for all of our actions and choices. These intentions now manifest on behalf of all humanity for the greatest and highest good of all.
