

## **Next year the clearing will start**

The time has come, military intervention

October 3, 2020 "Third military base on Curaçao"

I was denounced and they didn't know how many denials they had to write and show themselves "evidence" on the screen. No, Wacawa was not a third base and certainly not a FEMA camp!

15 Nov 2021

"The government will be taken over by the Dutch military. Martial Law will go into effect and FEMA camp will be operational."

Here too people were turned upside down and everything was a lie.

Overlooking Wacawa and the daily day and night movements clearly visible, the Dutch belligerents who are currently landing on Curaçao Hato with bushes and are housed in the Wacawa camp! Whether it's day or night, it's a military vehicle ride up and down between town and Wacawa! We also see that it rarely concerns exercises that are normally announced!

So I went to ask my military acquaintances some questions over a delicious glass of beer. The most important question was: What are you doing here and why do you see new soldiers being added every day?

They started again with the trite story of Dutch exercises on our island before they are sent to warm countries where they supposedly provide humanitarian aid. Now, the latter I know from very close Afghanistan and similar troops that it was not humanitarian aid but that people were regularly killed/tortured there! Something that is now coming out from statements from old-timers and the traumas they still have from it!

So I cut that off and a completely different story emerged.

I quote:

"The Dutch military does not train for war against other powers or for humanitarian aid elsewhere. The ever-growing group is here to take over the administration under Martial Law in both the Netherlands and the islands next year. Everything has already been mapped out and the entire plans have been worked out. That is what we are training for!"

They went on: "It was you who described FEMA camp and we had to stop but the camp is coming and everything is ready. Unvaccinated people will be arrested if they continue to refuse the shot and be taken to the camp. We're taking over the governments, they've done

their job. After taking over, it will be purified. Now I don't have to explain to you what to purify means and we are now being trained for that. Guys like you will be locked up under that Martial Law!

In the Netherlands, these training courses have also started and the realization of FEMA camps is in full swing! It was Australia that started one of the first military takeovers. The planning is that this will happen in the middle/end of 2022. The islands will come under Dutch military rule via rapid actions!”

-End Quotes-

These brainwashed informants who also think they are doing good, because it can no longer be like this, were saying this very seriously! I finished my beer and for them the party went on!

According to information from some military personnel stationed in Curaçao, Aruba, Bonaire, Curaçao, St Maarten, St Eustatius and Saba will fall under Martial Law and be controlled by military personnel next year! Then residents who refuse the jabs will be cleared and troublesome identities will be tortured under this Martial Law until they succumb. Just as, according to veterans, happened in Afghanistan and other places in the world under the Dutch flag!

It is no longer about a disease, it is about what they call “purifying” the population.
