Letter to all American Patriots,

I would like to speak with you briefly to describe what is GOING DOWN right NOW. Not in the future.... TODAY; that has yet to be disclosed by Trump/White House to the public (and frankly we are not sure how many in his administration or inner circle have been told due to his "leaky vessel"), but is why he is cleaning house again because he now has a STRONG platform to do the right thing and clear out "the handlers" put there by the "Deep State" (including many SES: Senior Executive Service) operators.

However, before we discuss further the shift taking place outside of public view; I recommend you listen to the first link below. I provide two more links as Background & Update on this first disclosure interview on the THI Show (described below). None of this material is "Classified" and is in the Public Domain but has received little exposure outside of our group as our platform is small. Outside of a few interviews on some UK Internet Radio shows…. Little but crickets have been stirred or dare explore, vet and broaden the exposure or this material.

I am attempting to extending our "platform/network" to get the word out now that it has progressed to this point where the actions already taken cannot not be reversed. But there will be many internal battles as the "NOW"/"Deep State" actors try to claw back control. They will fail and this series of interviews will make it clear why that is so. This will also lead to a vast need for leaders to fill the vacuum it creates to restore the Constitutional Republic of 1871. I would serve the team involved an injustice to attempt to summarize this material in my own words. The How… Why… What's Next… is complex and moving swiftly. The three interviews provided below will explain most of it and our "Truth Honor Integrity" (THI) Group has a huge archive of background after that available. It also provides more current updates weekly which require this baseline understanding to be valuable. Getting right to it then….

On Jan 27th, 2018 (4 days before the State of the Union Address); President Donald J. Trump was hand delivered a ***DECLARATION*** of America's Sovereignty by THE "Steward" of THE Trust ("Manna World Holding Trust"); explained within these interviews with "Kim" the executor. MWHT has declared America be released from ALL DEBT and CONTROL by the FED/IMF and beyond; returning ALL the assets stolen (put up as collateral to "The Trust" backing our currency; super notes; bonds; etc.); and much more....

I do understand how big a statement that is. I do not expect you to believe it but ask for your open mind to give it a listen and then we should meet and talk again with the goal of getting the right parties together to collaborate and for Q&A; current status updates; etc. Things will begin moving very quickly now and we need to build an "army" of leaders at every level to pick up the torch and fill that vacuum with Kingdom minded / Humanity Serving men/women to restore light into this darkness. Locally; Regionally; as control will move back to the States; Counties; etc. Business Leaders; Entrepreneurs; a new Eco-System as the monopolies fall…. And they will.

It is all there but raising consciousness NOW as WE the People must pick up the pieces. We must be the change we seek and the old excuses have been removed even if the people do not know it yet.

The FUNDs will be there. What we need is real relationships and networks that already exist to come together and collaborate. It is more important now than ever since without trust there is no transaction… and they have worked very hard to destroy any trust out there as the general public have NO IDEA of who to trust and just how deeply they have been lied to their entire lives at all levels. For many, this will paralyze them without soul filled leaders; trainers; mentors ... at every level of our country.

I promise you the first link will blow you away. {The Spreaker shows can be downloaded to your phone/pc }.

Please do not forward this "virally" but to those in your network that it may help in advancing your own initiatives for now as much is going on operationally and things are changing daily.

As you can see many have been very busy and have totally hobbled the "beast" globally. You can see it all over the MSM Media every day as they "spin" the "news" to control the narrative or bury what is really going down. Their roar is loud but their power (money printing) has been taken away (since before 2012). Their reserves are gone… they have NO cash and are frankly soiling themselves and their actions are exposing The Wizard of Oz!

Now it's time for more Paul Revere dispatches (being from Boston he was my favorite as a kid…. And now it's my turn) and building the leaders for tomorrow. Let's RIDE!!

I trust this finds you well.

In His service,

Mark E. Lacasse
