ABOUT THE DIVINE CEREMONY

Christopher and Amanda Macklin founded **The Global Enlightenment Project** to serve an awakening humanity and to support the healing needs of people all over the Earth. Together, they teach people about their Divine Sovereignty, Divine Alignment, and their Divine Plan.

The Divine Ceremony is a powerful ritual -- a comprehensive map of intent to dismantle and dissolve darkness, manipulations, and violations occurring on our planet. This includes archontic covenants and satanic and luciferian rituals, hence all nefarious intentions that keep our world unbalanced, controlled, and interrupt our organic sovereign right to evolve freely. Christopher and Amanda Macklin have crafted a comprehensive ceremonial text identifying orchestrated agendas which serve the few and oppress the many. Together, they lead a gathering of awakened participants in a virtual ceremony which energetically disengages from these named agendas and dissolves their negative intent.

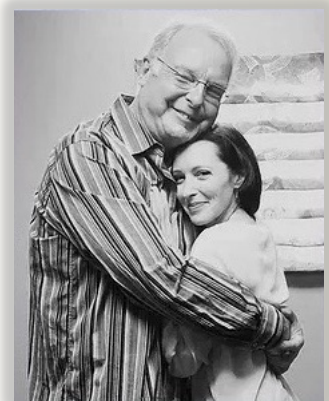

This is a call to action for those who are UNAFRAID of using their Light to call out the darkness and send it back to Source, with love. Love is the power that dispels the evil that has been permitted to manipulate humanity for too long. There has NEVER been a more vital time for humanity to come together and dissolve these influences in our world. We need every single one of you; your Divine Sovereign power, purpose, love, and intention.

To ensure that participants are not contaminated by other energies, each person will be placed in a personal sacred space, with portals bonded into Merkaba fields. This protection will run continuously for 72 hours after the ceremony has ended. Christopher will do a clearing of any negative entities and remote viewers, and then each participant will be infused with Ultimate Dimension energy (or tachyon energy, depending on needs). The Merkaba fields will be spun in order to boost the vibration of all participants during the ceremony and, in turn, also the power of their intention and divine will.

We will then proceed with the ceremony. We will dismantle and dissolve all archontic covenants, satanic and luciferian rituals, black magic, agencies and technologies that are being used for malevolent purposes, all individuals participating in pedophilia and human trafficking, and all crimes against humanity and animals on our planet.

We will be bringing all darkness before Source of all that is, for justice and transmutation in only the way Source knows how. We will do this with forgiveness and unconditional love, for it is not for us to judge. However, it is for us to claim the world and the timeline that we agree to participate in. Violation and manipulation are not a part of the New Earth.

We look forward to seeing and feeling your amazing presence in the ceremony. Please gather as many aligned souls as you can to participate with us. We cannot emphasize enough how IMPORTANT this truly is. Thank you for your presence!

DR. REV. CHRISTOPHER MACKLIN is one of only five Melchizedek beings on the planet. Christopher has always been psychically aware – able to perceive energy fields, spirit activity, and multi-dimensional phenomena. As a child, he was visited by negative ETs whereby he learned to deal with these presences; how to remove them from the planet, and how to heal the manipulations/violations they were inflicting on an unsuspecting humanity.

Despite his extraordinary abilities, Christopher took a traditional route through life. However, his successful career as an aviation engineer came to an abrupt end, becoming homeless and unable to get a job. This experience moved him to understand his Divine plan. In a pivotal moment Christopher promised himself and God that he would use his healing abilities to serve humanity. Christopher was afforded the opportunity to meditate for hours per day, for four years, so as to integrate his highest path and to understand the divine healing that he was being called to share with the world.

Christopher is now an internationally known Energy Healer who addresses a spectrum of physical, mental, and emotional issues. He has created a healing protocol to work especially with conditions created through ET technologies (Morgellons, Lyme, etc.). He specializes in healing abductees. He assists in the removal of negative ET presences, clearing homes and land, and closing multidimensional portals. In addition, he works closely with Pleiadeans and Arcturians to heal and rebalance humanity. Christopher is the author of several books.

AMANDA MACKLIN spent her early life deeply devoted to ballet and contemporary dance when an injury diverted her to music, poetry, and writing as a new expression. She began having random spiritual experiences - heightened states of consciousness and spontaneous astral projections. The birth of her daughter created the deep connection to her gifts. Her time as a Music Minister allowed an exploration of divinely inspired composition, whereby the challenge of raising a beloved autistic child transformed into an elevating experience.

In her later years, she began experiencing a series of miraculous transcendent states where all thought was ceased, the need for sleep and food terminated, and time was suspended. These profound suspension states sparked Clairaudience, including abilities to hear benevolent angelic voices. Source has given her the ability to access her subtle bodies and dimensionally enter other Universal realms. Through astral travel, Amanda experiences her oversoul residing in a Pleiadean, Andromedan, and Melchizedekian body. Some of these experiences involve Christopher, and others are missions for the greater network of the Highest Good for All.

Amanda is ultimately devoted to the sovereignty of humanity and the realization of the highest potentiality of this magnificent species. She assists the transformation of the emotional body and its integration with the Higher Self. Under the auspices of the **Global Enlightenment Project**, her intent is to answer the question of "Why are we here?"
