

[TW: Thomas Williams, MM: Miss Manna]

TW: Hi all and welcome to a special show this evening of the Truth, Honor and Integrity Show. Tonight's all about the Kingdom of Manna and the Foundation. So, we'll be covering a range of topics this evening and I hope you all enjoy it.

<Music Break>

TW: An introduction to tonight's show. We've done some big shows in the past on the Truth, Honor and Integrity Show and this next one will also follow that line. Lots have been written on many of the subjects discussed tonight. And tonight, we'll bring full clarity on a range of things that has effected humanity on and in all levels of society. A lot of what has taken place in our past has defied belief. Liberties were taken. Abuses perpetrated against the people. And a plethora of knowledge denied to us on all levels. Don't for one-minute think those abuses and lies apply only to the general populous. Far from it. Those in all governments have recently been finding out how little they knew also. A staggering control system implemented by many but known only to the very few. Much of the evidence shown to the various governments or heads of state is barely believable due to the scope and sheer complexity of it all. They have presumed they would know and would be aware of it. Just like

24 we presume governments know everything and are aware; both assumptions
25 are chronically wrong. It has been a long and arduous journey by what was
26 initially by just the few, but has grown exponentially since the truth started
27 to be revealed and also accepted. Some work is still to be done to tip the
28 change to a better way. But then the real work starts of restoring this planet.
29 Ending the servitude. Making sure nobody goes short on the basics in life.
30 Working diligently to bring harmony, peace and prosperity and the basic
31 needs for life. All of which has to be done in harmony with our planet. We
32 need to put an end to the blame culture and finger pointing. We are all
33 responsible for this mess and all of us are responsible to correct it. Personal
34 responsibility operating under the Golden Rule: Be of service to the self to
35 enable you to be in service to others. To the many who will be listening to
36 this show for the first time, welcome to the show. We are glad and grateful to
37 have you here with us this evening. Hopefully you will all gain something out
38 of it and I hope you will all leave the show with a renewed vigor to correct the
39 ways not conducive to humanity. To boldly step forward for your people and
40 to strive to be the real change we all desire and need. Time for all of us to
41 come together and this song says it best.

42
43 <Music Break>

44
45 **TW:** Hi all and welcome to the show. I'm going to bring the guest on now and I'm
46 going to ask her to introduce herself and welcome.

47
48 **MM:** Good evening Thomas, how are you?

49
50 **TW:** I'm doing fine, how are you?

51
52 **MM:** I'm doing well.

53
54 **TW:** Good.

55
56 **MM:** I'm here tonight to discuss with all of you in a very informal setting and then to
57 answer all your questions regarding the Kingdom of Manna and the Trust that is
58 affiliated with the Kingdom and how that all came about. Again, this is not a legal

disclosure. It's just an informal setting and a discussing to help you understand exactly why the Kingdom of Manna was formed and where we're going from here.

TW: Sounds good to me. Right; let's get into some of the meat of the show. So, we're going to do it in categories so we people can have a nice flow to all the information that's going to be delivered. And we're going to start with the Kingdom of Manna itself. And who or what is or are the Kingdom of Manna?

MM: The Kingdom of Manna was a decision made between the original Tribes, there were five at the time, and their current descendants and a group of people known as Warriors. And I'll explain that a little further when we start talking about Tribes. It was actually designed to act as a shield in front of the original Tribe for the future ceremonies. It was also designed to be a flagship as the Kingdom of Manna is officially the only sovereign nation on planet Earth at this time which has no obligation to the Master Trust. That's very important because it did gain its own sovereignty in October of 2016. And it is the only sovereign nation at this time on planet Earth. And we're hoping to change that by being the light in the darkness so everyone can more fully understand how the nations need to move forward to become an independent nation. And that's independent at multiple levels based on the slavery system that was installed by our former controllers.

TW: Good stuff. So, what have the Kingdom of Manna achieved in term of status and why?

MM: The Kingdom of Manna has been consistently working with virtually every single nation on Earth. It has formed a master plan of fighting against the control system on all levels. Not just the levels that we can see such as government levels or you know you've heard of these families and these factions I know you've discussed that on your show before. But, on level you can't see. So, the Warrior team and the teams of the original Tribes all had bits and pieces of information on how to circumvent the system. And by system, it's not just a political system, a legal system, a spiritual system and many other systems that were put in place by the former controllers of Earth. So, in this instance everything they've done to this point, in a very short period of time, is rather ground breaking and you may not see it or feel it on certain levels but it is definitely happening and I know you're seeing things now in the news that you didn't see before. So, it is a cooperative effort between all the nations. And all the people.

97 **TW:** **Yes this will eventually, as we'll cover as the show goes on, lead to the real**
98 **change that we've all been looking for. There's been quite a a historical legal**
99 **background to the filing of what the Kingdom of Manna has done. Are you**
100 **able to expand on that at all?**

101

102 **MM:** The Kingdom of Manna, are you talking about the previous kingdom?

103

104 **TW:** **Yep.**

105

106 **MM:** Ok. There was a previous Kingdom of Manna on the planet. And it existed before
107 Christ. I think it was in about the 10th century BC. The Kingdom was actually
108 overthrown and it is no longer. However, the reason why the Kingdom of Manna
109 was named the Kingdom of Manna is because the Trust itself was renamed after
110 the agreements and treaties had either been overthrown or legally circumvented.
111 There is no better teacher than your enemy. So, some of the members of the
112 Kingdom of Manna and members of the Trust had spent a great deal of time, from
113 the highest level on down through the system, to learn the system. So, we thank
114 our enemy for teaching us how to circumvent the system. And in that it was our
115 teacher.

116

117 **TW:** **There's a lot of legal ancient legal documentation to go through to arrive**
118 **where we are. I'm going to cover that later in the show. So, the Kingdom of**
119 **Manna have done these filings and are now, as you say, the only real**
120 **sovereign of this planet. What impact does Kingdom of Manna's blueprints**
121 **have for the rest of the world or can have for the rest of the world?**

122

123 **MM:** The Kingdom of Manna is designed to be a teacher. Not an enemy. But a teacher.
124 Right now, we're having a significant impact on teaching the nations how to
125 become a sovereign onto yourself. And there are several different structures which
126 control what you call banking. Banking is not a safe. It is not a storage facility. It is a
127 means by which water abuts land. So, we can talk about Admiralty Law and what
128 not. But the whole structure is basically a play on words. So, the Kingdom of Manna
129 and all its associates and its teams have figured out all the legal loopholes dating
130 back 16,000 years until today in order to assist all of humanity and all of the
131 nations on being free. So, to return everything from the return of your soul and the
132 return of your property.

133

134 **TW: Big stuff. Big stuff. We'll probably be covering the soul aspect and some other**
135 **details in a different show but this is all to do with some of the legal aspects**
136 **and some of the things that have been filed and how it's been done and who's**
137 **helping who and who's not. And so, from what I know and I hope you can**
138 **elaborate on this been what efforts have been done to show the rest of the**
139 **world and rest of the other countries how to do and follow what the Kingdom**
140 **of Manna has done and what has the response been in general from the other**
141 **countries?**

142

143 **MM:** You know the establishment of fear globally is still very much present. And people
144 are very confused and some are catching on right away and some are still learning
145 the system. There's so many aspects of the system it would boggle your mind. You
146 know even as an awake person, a person who actually understands something is
147 wrong. And you know you've been doing this for most of your life Thomas and
148 these people knew nothing about any of this. So, it's a learning experience for
149 everyone. It's has been very well received. Some nations have been looking for
150 ways to get out of the slavery system for a very long period of time. Therefore, they
151 are a little bit more knowledgeable than others. You know, and other nations, like
152 the USA, it's been quite a struggle. They don't understand why the families, which
153 is all they knew, are not funding the government anymore or the money is barely
154 trickling in. They don't understand why they are not doing the same things they
155 were doing before. And the things they are doing are not working. They are not
156 achieving the end results as promised. So, we are well received pretty much
157 everywhere, at this moment in time. Both on a what we consider a Tribe level to be
158 a government and a nation unto itself as well. So, you know the working
159 relationship between all our groups has been very well received. It's been a fight.
160 It's been a battle. For every positive result, the families come in and perpetuate a
161 negative. And you know to somewhat the families understanding of what is going
162 on you know again we have spent several years with our teacher and to learn the
163 system. And, the families really didn't care about learning the system because they
164 had their power positions or so they thought. So, the lies ran very deep constantly.
165 And deciphering between the lies and the truth was a very difficult process. And I
166 don't think the Families Level is ready to understand that.

167

168 **TW:** Yeah, I kind of mentioned in the opening piece, in between the music, about
169 **the lies that have been told on all levels. And how a lot of their plans, one of**
170 **the favorite things our listeners like to hear, when we describe certain things**
171 **that the control system are trying to implement is failed, and largely a lot**
172 **their bigger plans, if not all of them, have now failed badly. And I hope you**

173 **know it must have been really difficult going and speaking with the**
174 **successive governments all around the world. All of them. And trying to relay**
175 **a system in reality. And I said this on the show many times: If you think you**
176 **know the system of control, you don't. It's nothing like what's on the internet.**
177 **It's mind boggling in its scope and depth and no one really has covered it or**
178 **even scratched the surface of it. It must have been difficult trying to get that**
179 **across. Because these people all think they're important and so because**
180 **they're important they know stuff. Only to find out everything pretty much**
181 **they've been told is a lie or a diversion from the truth. Is that what you've**
182 **found?**

183
184 MM: That's definitely what we've personally found in dealing with the highest level. You
185 know and with the people on the internet, there is some bit of truth to everything.
186 And you know, within everything within the system there are parties that do put
187 out some truth and they do that in order to send messages to our groups from the
188 inside out. And sometimes it's to send a message to the people in a way that they
189 will actually understand. You know and I do have to applaud all those who are
190 fighting. I just wish in some way that we could get everybody to start swinging the
191 same bat. And really understand that there is a right and there is no wrong. Again,
192 we're all learning. And we've spent a lot of years learning ourselves. And you know
193 to the tune of you know, I know they were continuously stealing from the Trust
194 until a few years ago. By lying of course. So, you know everyone is learning. This is
195 a new experience for everyone. Everybody has little bits and pieces which make up
196 a whole. And if the eight billion people on the planet were all swinging the same
197 bat and working together there would be no more control system within days. But
198 that's not the case right now, so we do have a few million people working together
199 with us. And they are a team. And there is no one person that is more important
200 than another. We are all equal and we are all students. So, we appreciate you know
201 yourself Thomas and all of the other people out there that are trying to help fix the
202 system.

203
204 TW: **Yeah. So, what will the impact be globally if most, if not all of the countries,**
205 **follow the Kingdom of Manna blueprint that's been set forward?**

206
207 MM: Well the Trust which is part of the decision making and implementation of the
208 Kingdom of Manna. The Trust had decided when it went under new management
209 to rename the Trust in totality as the Manna Trust. As you put on you site. So, the
210 impact globally, now that the Trust is under different management, is actually to
211 destroy the Trust. So, the Trust currently has the central control power of

212 sovereignty virtually over every single nation on Earth and every person on Earth
213 and every soul on Earth. And the new management of the Trust is trying to break
214 that entire system down. And it does have the legal authority, thanks to our
215 teachers, to actually do that. So, once the blueprint is actually followed, each nation
216 will become a nation unto itself. Each person a person unto itself. And even though
217 you still may be a citizen of, for example, the United State or any other nation, you
218 are still a person unto yourself with a living soul. And no longer behooven to a
219 centralized controlling point.

220

221 **TW: So that basically ends the-capital-letters-we-are-dead-people-at-seven**
222 **nonsense that was being perpetrated for 400 years, is it?**

223

224 **MM:** Yes, it was since I think 1666. And there are three different sections of the Cestui
225 Que Vie Estate. Now, each nation is called a state because it is actually an estate
226 under Cestui Que Vie. So, various acts through various points of time, some in
227 relation to the United States, some in relation to every other nation on Earth, have
228 been implemented in order to create a dual system. So, doing business with the
229 Trust, unbeknownst to yourself, falls under most of your legal filings. So, I mean I
230 see some of these people on the internet filing papers within the court but you're
231 filing papers within Slave Court. So, you actually have to start filing paperwork
232 within Monarch Court. And a Monarch is simply by definition in Monarch Court a
233 person who actually owns their own soul. A sovereign unto yourself. And so there
234 were very few people on granted monarchy since over a 1000 years. So now, there
235 are many others there. Including one of the things the Kingdom of Manna has
236 recently done. It has actually filed on behalf of all Heads of State that during their
237 term they are actually a Monarch or a Royal Monarch over the state. So, they
238 actually can now sign for the sovereignty of the state. So, it is no longer is an estate.
239 It becomes its own state nation.

240

241 **TW: Sounds good to me. Now, some of the concerns, because there's been a**
242 **mistrust of Royals and all these titles these titles and what not and some of**
243 **the concerns of some of the members to do with the Kingdom of Manna is**
244 **surrounding the titles. Particularly to do with Jesper. Can you address what**
245 **that really means because it's not what people think?**

246

247 **MM:** Well Jesper himself has been recognized as the warrior, which we will get into
248 later. So, Jesper is on the front lines fighting against the system. Jesper is, if you
249 notice his title, is actually Grand Master Knight. So, he is a Knight or a Grand Master

250 Knight. Which, in the days of old, was actually the party who would lead the troops
251 to war. Or would lead all the other knights. The only king on planet Earth, as it
252 always was, was actually God, or Source, or Creator. It was never any other being in
253 the days of old. So, that is why Jesper holds the title as Grand Master Knight. It does
254 show that he is a Royal Monarch. Which means he has the right to rule over other
255 monarchs. Although they are monarchs unto themselves. Does that make sense?

256

257 **TW: Yep.**

258

259 **MM: OK**

260

261 **TW: From what I understand the Kingdom of Manna is not going to be the**
262 **dominant, like new boss same as the old boss. It's going to share the**
263 **sovereignty out. Have I understood that correctly?**

264

265 **MM:** Well, the Kingdom of Manna's goal, again Jesper being the front warrior and the
266 Trust being behind him, and the Trust is behind him because the Trust needed a
267 defender. So, the Kingdom became the Knight unto itself and the Trust is actually
268 the holder of the assets. So, the Kingdom doesn't actually hold assets. The
269 Kingdom's job is to purely defend the Trust and go out onto the front lines and
270 assist the other nations in restoring their sovereignty. So, can the Kingdom of
271 Manna restore sovereignty of a nation? No, it can't. But the Trust does. So, the
272 Kingdom of Manna does the diplomatic communications to all the nations because
273 it is a nation unto itself. So, it is currently distributing the paperwork. It's
274 explaining why this is necessary to be done. Which starts breaking down the
275 corporate level structures going on through all the way down to the central banks
276 of governments. Through the Faction Levels, through the Family Levels and Master
277 Levels and D Levels and C Levels of control. So yeah, it's actually an attempt to
278 restore states instead of them being estates of a third-party Crown Corporation.

279

280 **TW: Good stuff. How does the Trust and the Kingdom of Manna plan to deal with**
281 **justice to the criminals who have perpetrated the crimes against humanity**
282 **through all this time? Is this something the people of each country will need**
283 **to request from the Kingdom of Manna? And, are there some kind of people's**
284 **league commission, a new non-political party, that can be put in place in each**
285 **nation to deal with this?**

286

287 MM: Well, the Kingdom of Manna is establishing embassies. And, we do have
288 agreements from about 144 different nations to establish embassies and or
289 sovereign ground in some places in protection of either assets or of people. So, the
290 Kingdom of Manna is forming its own alliances and, of course, will come to the aide
291 of its allies. However, the Kingdom of Manna is a sovereign unto itself. And under
292 the original Sovereign Rules, the Kingdom cannot be an aggressor. It can only be a
293 defender. Otherwise it loses its sovereignty under Monarch Law. So, this is
294 something that every nation eventually will need to adhere to. But, if it would like
295 to keep its sovereignty, or at least gain it and then keep it I guess.

296 We are helping define the infiltration in nations and we are assisting the nations in
297 understanding the control system. But again, it took us years to figure it out, you
298 know with the help of almost two million people. So, you know we are also
299 distributing information. We're putting together booklets so the nations can
300 actually understand the control system, should they choose to lose it. So, in the
301 case of criminals, we have pointed out to several nations that these parties have
302 forfeited their sovereignty and they are not Monarchs. They are now part of the
303 slave system themselves. And they are subject to the laws of the nation to which
304 they are citizens. There is no sovereignty that would give you global immunity
305 against the law of the nation. So, if you commit treason in the United States then
306 you are tried for treason.

307 They claim, right now, that they are the owners of Crown Corporation. Crown
308 Corporation is what happened when they bankrupted the Bank of England and the
309 Crown, the actual Queen of England. Or well now the Queen. But, in 1814 when
310 they did it there wasn't a Queen. And they took over the entire Crown Corporation;
311 hence, privatizing the actual Trust or the Cestui Que Vie Estate. So, all the states
312 formed underneath the Crown Corporation they're claiming to actually own. Which
313 is why they are claiming to be the Royal Monarchs of Europe and the United States
314 and other nations. However, that is not the case. Crown Corporation, at the time,
315 was a subsidiary of the Trust, which is now known as Manna World Holding Trust.
316 It was never a controlling factor. It was seven to eight controlling points down
317 from where the actual master control over the Trust lay at the time. So, it's a
318 misconception.

319

320 TW: Yeah

321

322 MM: And it's a perception only of power. It's not real.

323

324 **TW:** **Nope. And we've kind of covered this. So many certain organizations,**
325 **probably best not named, but certain high-level organizations that seem to**
326 **think that they operate with impunity. Now, found out that they don't have**
327 **sovereignty and can't make certain agreements. And, I don't think they are**
328 **best pleased with. But this is the way things are going. This is the changes**
329 **that people are now starting to see and that we have all been looking forward**
330 **too. So where are we next? How old is the Kingdom of Manna and the Manna**
331 **World Holding Trust really?**

332

333 **MM:** Well the Trust is very old. And, it actually started under the agreements of 16000
334 years ago during the war. It had several different names. You probably heard
335 names on the internet like Alpha & Omega, and Rothschild Trust, and Crown Trust,
336 and you know Bearing Philippine Trust, and SwissIndo Trust and all of these
337 different Trusts, which were actually always only one Trust. So, the names are
338 irrelevant because you know as you've said in the past Thomas; names, names,
339 names. Right?

340

341 **TW:** **Yeah.**

342

343 **MM:** The ultimate purse and the ultimate key holder had always been in the past, by
344 agreement 16500 years ago, had been on the highest level which was far above any
345 of these Alpha Omega Trilateral people. I mean they are very far down the bottom.
346 If I were to write all the names on a sheet of paper, the paper would probably be
347 six feet long. And, you start getting to the Trilaterals and the SwissIndos and those
348 people probably somewhere about four inches from the bottom.

349

350 **TW:** **Yep. How is it that the Tribes who are so inextricably woven into its origins**
351 **with the Trust or Collateral Accounts and systems forgot such an important**
352 **piece of the prophecies such as the Kingdom of Manna or the World Holding**
353 **Trust in all their dance and celebrations leading up to 2012 and beyond?**
354 **How come the Tribes missed it?**

355

356 **MM:** Well, let me define Tribe for you. When I use the term Tribe, I'm actually using
357 groups of people who existed on planet Earth 16000 years ago. So, there were five
358 main groups at the time. Some say seven and we all confer with about five. And
359 each one of the original groups has its own structure. So, you have you know like in
360 certain areas of the world they call them the shamans. And these are the parties

that relay the information directly from source to the tribal leaders. Now, it would probably boggle your mind to know that tribe has nothing to do with Indian tribe. Tribe has to do with the original people who were here at that time and their current decedents. So, it's not quite like everybody portrays it to be. You know, although we have of course respect for all the tribal nations. Just like we have respect for all of the nations in the world. They did not forget the Tribe who was present at the time of the original agreement was the one most in contact with the warring groups. As I understand it. And they had known of these groups for quite a long time. And, there was a lot of trading done between these groups. And then two of the other groups started warring. To the point where the other tribe had not enough technology to stop the war; as the third entity. But, as one of the parties most present you know at the time. So, the agreement was made in order to keep the peace and keep all their people from dying. That's basically what ended up happening at that time.

So, did they forget? No, they were waiting for a time in accordance with their prophecies that had been passed down from the shamans to the tribal leaders and the tribal chiefs and the warriors. They were waiting for a time where they call, they refer to, a party called the Fifth Element. And when the Fifth Element and the Warrior arrive, then the planet will be restored.

TW: Yes.

MM: So, I don't really know the entire prophecy. But, I know they were looking for specific people to show; which would then lead all of the five original tribes out of the Martial Law agreement or global war and every all laws predicated on war time. So is all banking and everything else; it's all based on war time. So, once they had discovered that the Fifth Element and the Warrior had arrived, they began the initiation of the Peace Agreement. Or the Peace Treaty Agreement. Making peace between all living matter, not just intelligent life, all living matter on Earth. So, that Peace Treaty has been circulating now basically on foot, by land, sea and air to the original tribes for all of their signatures. And then there will be an upcoming peace ceremony to commence the treaty in the old ways in special locations.

TW: Sounds good. Who originally was Emperor Constantine to Manna?

MM: Without getting into too much detail, and I'll kind of breeze over this, Constantine initiated the first Council of Nicaea. So, the Council at the time was formed of what we're now calling the shamans and the prophets and the original leaders only as

399 relayers of the word of Source or the Creator to the tribal chiefs. Or to the leaders
400 of the land. At the time, it was decided that the world would be divided into nine
401 kingdoms. And the one with the most royal blood, or real-world blood, which
402 would have been the Sang Real at the time, would be the one with the right to veto
403 over the Council or over the other leaders. So, at the time, this is when they formed
404 Nicaea Creed, or Nicene Creed, which was implemented in accordance to the
405 structure.

406

407 **TW: Good stuff. So, when did the last Kingdom come into being and has there ever**
408 **been one that has come into being without shedding blood?**

409

410 **MM:** The last official Kingdom to be implemented, I think, was in about 1500 AD and of
411 course there was a lot of bloodshed at that time. I would have to say it's at least
412 well over a few thousand years since the last Kingdom was formed without
413 shedding any blood.

414

415 **TW: Good stuff. Alright this will probably be the last question on the Kingdom of**
416 **Manna. And we might get into a couple of more bits before the top of the hour**
417 **and have some music and rest for a bit. This is a question from one of the**
418 **members. How much say or foothold does Britain have over the Admiralty**
419 **chain of Islands? The Kingdom of Manna is located on Los Negros and the**
420 **island next to this is New Britain Island and the island next to it is New**
421 **Ireland. Does Britain have any control over those islands?**

422

423 **MM:** Not over the Kingdom of Manna at this time. And we are concluding the paperwork
424 with Papua New Guinea so they are a sovereign nation unto themselves as well.
425 Which encompasses the island. The, again, the Crown, which has nothing to do
426 with the Queen of England, the Crown which was controlled and still is, well the
427 Trust is not, but the Crown Corporation was and still is Rothschild. So, it had
428 nothing to do with the actual Queen. The Queen was actually under Crown
429 Corporation. So, this is 1814. Now the main Trust, which is the only sovereign
430 which holds all other states or estates, has released the Kingdom of Manna as its on
431 sovereign entity. So, over the area which has been gifted by Papua New Guinea and
432 is now the Kingdom of Manna, no the Queen, the Crown, Crown Corporation,
433 Rothschilds holds no control over the Kingdom of Manna land. Nor its people. Nor
434 its mineral rights. Nor any of its assets. So, it has worked very diligently to form its
435 central bank and its central banking system together with all the team members.
436 And that is the first central bank currently on planet Earth that is in no way shape

437 or form obligated to the Trust itself. And the Trust itself is in no way shape or form
438 obligated to Rothschilds any longer either by agreement and by default. And we
439 can get into that a little bit later if you'd like but it has no control. The Queen, nor
440 Crown, nor Rothschild or anybody else has control over the Kingdom of Manna or
441 its assets.

442

443 **TW: Good stuff say all of us. Since you mentioned the control structure, can you**
444 **explain some of the control structure so it will make it easier for people to**
445 **listen to the rest of the show?**

446

447 **MM:** Okay. Thomas do you think it will be easier to go from the bottom up or the top
448 down?

449

450 **TW: Your choice. I'll leave that up to you.**

451

452 **MM:** Okay, I'm going to speak a little vague. And, you're going to have to read between
453 the lines. And I know Thomas you've discussed a lot of these things in the past,
454 along with some of your other guests. So, I'm going to be very vague for purposes
455 of this call. Okay. The top of the tower you have what I would call the D Level. And
456 on the D Level, most recently, you used to have four and now, you have three. And
457 they control any other parties involved in the D Level. Then you have what we call
458 the P Level. And the P Level would take orders from the D Level, which was up top,
459 and relay those orders to its lower levels called the C Level. As we go down the
460 food chain here, the C Level was responsible for legal jargon, black magic, anything
461 intertwining that had to do with souls and selling of souls, collecting of souls and
462 the more important agreements which the D Level had made with a gentleman
463 named Mr L. So, Mr L made a deal with the D Level for collection of souls in
464 exchange for power. And very similar to you know Solomon with Solomon's sword
465 and shield and if you hold the sword and the shield you will never lose a battle.
466 They made a deal with somebody a little more different than Solomon did. So, but
467 the rings are the same and they carry on down the levels. Okay?

468 Then you get down to what I call the Master Level. The Master Level are
469 considered to be slave masters. And slave masters were designed to control the
470 head slaves which you are now talking about, Families. So, when, to go back up a
471 little bit to D Level, people and even potentially C Level, there were many groups of
472 people and let's call them the others. So, the other people up there were actually
473 also Slave Level but the Master Slave Level was designed to control people. So,
474 humanity essentially. So, they formed these groups of people called the Families.

And then you get to Families and factions of Families and other head slaves. And, then once you get past the Faction Level, now you have governments. And factions are often intertwined within government. But after you get through government level now you start talking about the people.

So, you can see there was a large sheet, I showed you Thomas, that was so long and had so many names. And you didn't even start getting to governments until you were within the last couple of inches of the page. So, each area has about twelve points: some are spiritual levels, some are political levels, some are ranking levels, some are financial levels, some are treaty levels. And, each one of these levels had its own control structure. To control the next link in the chain and all links in the chain under it. The Trust was always wholly under the management at the D Level at the very top. So, it managed all of the souls. It managed the Cestui Que Vie. It managed the land. It managed the resources. And, it managed money control.

So, the illusion that the Families or the factions or everybody is arguing with governments over accounts and what not. It's an illusion because it would have never ever happened should the D Level have been still in place. So, these are the types of things that the Kingdom of Manna has discovered over you know a number of years' time. And has actually managed to crumble some of it so far. And the rest of it is coming along very nicely. And the governments are getting on board as they're understanding the current structure is falling. But again, there is still fear.

TW: Yep. In essence, our members being educated in a way where I've tried to tell people it doesn't matter whether it's Obama, it doesn't matter if it's a Trump, or Blair or May or whoever in any country. That they really have no say in the matter, in what takes place. You know we've mentioned the 39 levels of secrecy in the United States. All those layers of control are above Mr Trump or whoever is the alleged President at the time. That is correct as you understand it?

MM: It has been that way you know at varying points in history in the United States since the days of Lincoln. But yes, under global Marshal Law or under Martial Law, the current head of state, or states, is always the reigning general. Or the dictator in this case but the reigning general. So, the reigning general controls all structures during Marshal Law. And when you have global Marshal Law that leaves you with a reigning general and some colonels up there at the top in D Level. Nowhere near government.

513 **TW:** A wheel within a wheel. It's extraordinary what's been set in place here. It's
514 extraordinarily clever in a strange sort of way of how they managed over so
515 many thousands of years to keep going and only have so few really to
516 understand or grasp what's going on. As you describe the individual layers,
517 it's my understanding each layer down was lied to. And then the next layer
518 down was lied to. And the next layer lied. And none of them knew what the
519 next layer up knew. And they were lying to the ones below. So, nobody really
520 knows what's going on. It's kind of a case, I've said this before many times on
521 the show, once the top structure started collapsing, we're left with a lot of
522 people who think they know stuff but, in reality, know less than some of the
523 people in the alternative media. And these people have just followed orders
524 for many year, all their lives, and then suddenly they've been thrust, or
525 thinking they've been thrust into leader's roles. And, they're not capable of it.
526 And this has helped us in many ways. The fact that the Illuminati broke up
527 into the factions and people wanting the various factions suddenly think that
528 they can control the planet when in reality that will fracture and fracture and
529 fracture and what will be left, in my opinion, is a few people who are not in
530 control of their faculties or senses. And you know they just seem to think that
531 they own everything. When, in reality, they own nothing.

532

533 **MM:** Or their own soul. These people don't have one anymore.

534

535 **TW:** Yeah.

536

537 **MM:** You know the lie, actually to be very fair, the lie started with an agreement made
538 on D Level. They were, too, lied to, to be fair. They were told that something was
539 possible that wasn't possible. You know, there is no such thing as a co-creator,
540 there is a creator. I'm going to give you a little bit of clue into that but these further
541 down the line. The major agreement, not so much on D Level but going back down
542 this chain here to Family Level and Master Level ended end of 2012, December
543 23rd. I think you remember the whole world was supposed to end.

544

545 **TW:** Yes

546

547 **MM:** And we're all still here. Yeah. And so, that was supposed to be the harvest of souls.
548 You know, at the time. And the people involved on the different levels, here,
549 pleaded all the way to the top on D Level. And about September, those on D Level

550 knew this was going to happen. And they pleaded to the gentlemen on the other
551 side of the agreement and asked for more time. And, of course, liars did as liars do.
552 Might as well just call him Mr Liar. So, Mr Liar agreed and gave them a 100-year
553 extension. So, they assumed that if they got an extension that all of the assets and
554 everything else that were contained within the Trust would be immediately
555 returned. But no. Not part of the deal. So, they're still running around with Project
556 Looking Glass and all these things that were purportedly prophetic but nothing
557 more than instructions coming from D Level and beyond to implement some plan
558 that no longer exists.

559

560 **TW: Ooops.**

561

562 **MM:** So, that's pretty much where everybody is at. And you know they're selling souls
563 and you know and Solomon's legend and rings of controlling angels and demons.
564 And, you know, Natural Law is very important here because under Natural Law
565 you cannot contact an angel, be it a demon or an angel, and ask them for things in
566 relation to personal gain. So, they can call them but if they are calling for that then
567 the karmic backlash is immediate and settled. From the very people they called
568 upon. Be it either one. So that's been happening quite frequently.

569

570 **TW: That's good. We're at the top of the hour. We'll have a couple of songs and**
571 **we'll be back with part 2.**

572

573 **<Music Break>**

574

575 **TW: Hi all and welcome back to the second part of tonight's show. Judging from**
576 **some of the comments in the chat, you're all enjoying what you're hearing to**
577 **date. And that's good. We're going to have some more fun now. There's lots**
578 **more info to be revealed. For those two songs "Winds Of Change", the winds**
579 **of change are blowing through this planet at a rapid pace. I know lots of**
580 **people, or some people, think "Oh nothing's happening". Well, everything is**
581 **happening. It's just a lot of it is remaining behind closed doors for various**
582 **reasons. One, not to scare the populous into panic. And "May It Be" is the**
583 **second song. May it be that we all stand up together. Cause that's the key to**
584 **going forward. No more division. This is what is being achieved and**
585 **ultimately being striven for going forward. So, we going to be getting into**
586 **some agreements now that's been going on. One you mention previously. But**

there's other agreements that I'm aware of. A 100 year one, a 200 year one, a 500 year one and a 1000 year one. Never mind the 16 and half thousand year one. Can you talk on any one of those four; the 100, 200, 500, or the 1000 year one?

MM: Sure. Remember all agreements are based on the original agreement. Because all of the sub-agreements were created at the D Level. These were not the inventions of Families. Unbeknownst to everybody. They were just basically carrying out orders as had played. So, the seven-year agreement was an agreement on different levels of the control structure. They are very famous for putting in little clauses based on varying degrees of law. Whether it be Monarch Law or Binary Court or even Slave Court in order to achieve their goals on various levels. So, on some levels you're talking about, maybe, a 500 year agreement you would be referring to an agreement whereby the Rothschilds started interbreeding the original Sang Real and the original Family in order to gain control. Thinking that on the spiritual level that the Messiah would be born of that line therefore they would have to control this person. And there's a little bit different take when you start talking to some of the original Tribes about what that actually is. But, that was part of the reason for it. The next reason for it was actually to control the banking structure that was being implemented at that time on a global scale. This agreement expired on September 5th, 2012. Hence the request for a renewal as high as the D Level. Because without the cyber system, or AI system as you call it, it would be nearly impossible to control 8 billion people. The cyber system contained, or the AI system contained multiple different faction's systems. So, it had an infiltration starting in 1998 to virtually every intelligence agency on planet Earth. Making sure that the dissemination of information was always in their favor. Also into central banking systems starting in about 1913 and continuing on until the implementation of the Bank for International Settlement, which was just another control structure. No central bank on planet Earth could be issued a central bank registration number unless it was from the Master Number which was also controlled at the D Level. So, the illusion of it being control at any Family Level or Faction Level was just that, simply an illusion. So, the ultimate decision on whether or not anyone gained any kind of a central bank was made at the very top. So, every subsequent agreement thereto was a gathering of more people and more nations underneath the same control structure including but not limited to the United Nations.

TW: **So, you mention 1913. That's kind of when the Federal Reserve systems were implemented in the United States. Of course, that charter is now ended. What is the way forward with the Fed? Because, obviously the illusion of it existing**

627 **still carries on. Is it that eventually America being declared sovereign will**
628 **end that nonsense all together once and for all or do we repurpose it?**

629

630 MM: Well, you know, unfortunately the parties that are now running the Trust, which
631 are not Rothschild and not Chinese elders and not any of these former Faction
632 leaders. It is a party that you wouldn't recognize if you heard their name. They are
633 part of the original Tribes. And under the old agreement they happen to have the
634 most DNA of the original Sang Real. So that's the party that is currently there in
635 cooperation with all of the original members at that time. So, they have - you know
636 dealt with pretty rough hand with multiple control structures. So, the Fed being
637 one of them, I know a few years ago they had made a decision to remove the asset
638 base after the expiration of the agreement between the Fed and the Trust to return
639 assets relevant to each nation in the off-ledger system credited to each nation. So,
640 any, regardless of how the assets were acquired through varying points in history,
641 it is now reallocated and repurposed to each nation to include but not limited to
642 the Department of Treasury of the United States. Not to be confused with the
643 Treasury of the United States. They are two separate entities. So, the Fed is a
644 clearing house at the moment. It clears wires, transfers and flips incoming through
645 the nation and to 140 nations. It no longer holds the right to print paper currency
646 on behalf of the United States. Although it's like the elephant in the room that
647 nobody is discussing. The current head of state is addressing some of these things
648 little by little in the news. So, the decision on what to do with the Fed, once the
649 United States is a sovereign unto itself, is purely the decision of the United States.
650 So, some discussions have been had about nationalizing the Fed and then slowly
651 phasing out a dual system. But, you know, that's ultimately the decision of the
652 citizens of the United States and its current reigning monarch. Which is no longer
653 Rothschild or the Crown. Crown Corporation being Rothschild.

654

655 TW: **Something that was mentioned previously I'd like you to touch on. There was**
656 **liens against the Trust that was then loaned to countries as I understand it. It**
657 **should have been interest bearing for bonds of a better term where the**
658 **country should have received benefits from it rather than debts. Can you**
659 **discuss any of that?**

660

661 MM: Sure, in the agreement with the Trust, the slave masters', which again are way
662 down the food chain, job was actually to collect and control resources of the whole
663 planet on behalf of their master, the D Level. So, that was their exclusive job. So, by
664 using political control, financial control, various legal jargon over the years they
665 had basically tied up almost all of the inground resources on behalf of the D Level.

What the D Level had gone ahead and done, is they had basically liened basically every vein of gold, every diamond in the Earth, every drop of oil into perpetuity. Although, it's a regenerating resource as you know. And they created the money magic system, like you call it, which is an algorithm a trading algorithm which continuously trades against all of these resources in order to fill up buckets of accounts which, you know, we're calling the Global Collateral Accounts.

The Family Level or the Slave Master Level was very efficient in achieving most of these goals. But unbeknownst to them those liens still exist to this day. So, the only party that can actually hold an asset of a nation legally is a sovereign. So, the reason why the Trust still holds all of these inground resources is because it is the only sovereign other than the Kingdom of Manna. And the Kingdom of Manna has zero intention of conquering any other nation for its resources. That is not in its charter. So, the nation itself has to become a sovereign entity in order to hold its own assets and that is in relation to Monarch Law. So, once those papers are all crossfiled, then the asset base gets returned to the nation, cannot be liened by a third party entity who is no longer a sovereign, such as the United Nations, Rothschild, the Crown Corporation, or any other entity claiming to have sovereignty but does not. They would actually have to dispute and in Monarch Court and claim sovereignty or royal monarchy again. And I can guarantee you there will be parties there present to dispute that claim.

So, currently what we've been doing is trying to, you know we've seen everything from the leveraging or attempted leverage of the BLM in the United States over to the Shanghai Exchange and the Chinese elders. We've seen leveraging attempts of all of the asset base underneath the continent of Africa to the most recent one, yesterday, of the nation now known as Russia. So, all of these attempts will fail because in the algorithm banking that they created themselves, great teachers they are, unfortunately there is a first lien holder which prevents any third party entities from making a lien against another party's asset.

So, as the ultimate reigning sovereign, we have a different goal than our predecessors did. So, we're basically blocking that and letting them know that they have spent all this money over all these years conquering nations, feeding war machines and doing all these things. So, until those liens are paid back, we're not interested in participating a third party sovereign, which is questionable, entity liening another sovereign entity, which is still a sub-sovereign, both of them are sub-sovereign, asset. We're not doing that anymore. Until they can pay back astronomical numbers of currency, you know, it's rejected every time in the banking system. So, they're having a lot of trouble understanding why their corporation central banks are no longer able to sign off on resources of their nations. And [?] and bribes were promised and given and what not. And it's not happening any more. They don't really understand why because they didn't create the system. The D Level created the system.

707

708 **TW:** Yeah and this is what backs up what I said earlier. How nobody, once the
709 further you go down the chain, nobody understands the system and why they
710 failed ultimately. And I think I worked out one of the liens is 27 years global
711 GDP. So, that's just one of them. So, they're in trouble and they're not going to
712 get out of it. You mentioned briefly about the 16,500 thousand year global
713 treaty that was recently voided. Any update on that at all?

714

715 **MM:** We are in the final stages, right now, of that treaty passing through all of the
716 appropriate hands that it needs to pass through. These parties with knowledge of
717 that agreement that were present, whose ancestors were present at that time. And
718 it should be completed shortly, I think, within the next month. It's been circulating
719 the globe since the 6th of August 2016. I have to remember that some of these
720 people live in very remote locations. And due to breaches of cyber security and
721 many other things that they created in their control systems, all this has to be done
722 on foot, has to be hand-to-hand deliveries. There has to be, in the old way, thumb
723 prints, and what not with that agreement.

724

725 **TW:** In a previous show to do with this particular agreement that was voided, it
726 was mentioned about things particularly to do with the kangaroo skin and
727 something to do with a staff or a stick that was involved with that particular
728 agreement. Can you elaborate any further on that?

729

730 **MM:** Sure. The agreement was written at that time on a kangaroo skin by the party that
731 was most closely involved with the two warring groups. And it was an attempt to
732 create no more blood loss, blood shed on planet Earth. So, it wasn't necessarily a
733 peace agreement, but those parties had agreed at that time to have control over
734 various areas. And of course, they were lied to, too. There were non-disclosed parts
735 to that agreement, and implied consent. So, the stick that you're referring to was
736 part of the ceremony. So, in the days of old, at that time, they believed that certain
737 places on Earth were holy places or places that were like what you would say were
738 the portals to heaven. And the agreement was sealed in song and dance and
739 frequency. The stick itself was representation of bringing the heavens to the Earth,
740 in the old prophetic way.

741 So, for the undoing of the agreement, the descendants of these folks will be present
742 at this location, same location. And the same prophets will be repeated. This time,
743 with a member/descendant of each one of the original tribes that were present at
744 that time. So, again in the tribal prophecy, the tribes believe they have identified

745 the party they call the fifth element, or the one closest to source, which apparently
746 is something that pops up every two thousand years or so. There is an opportunity
747 to do this. And the warrior pops up at the same time. So, shall they find each other,
748 and shall they work towards the peace of planet Earth, then the ceremony will
749 commence with all of the original members present and each representation of all
750 life existing on planet Earth.

751 So, some of the tribal members will be there, for example, to dance and sing on
752 behalf of grass. We will make peace in accordance with Natural Law and nature.
753 You know there are things in nature, like survival of the fittest, and what not. And
754 of course there's food sources, that we have to give what we take. And this is
755 something the tribes understand, especially the original tribes. That if you take
756 from the Earth, you must give to the Earth. So, if we're nourishing plant life on the
757 planet, plants are also food source for us, and a medicinal source for us. So, we
758 must give as much as we take. We only take what you need and we leave the rest.
759 So, all of these representations be there at the ceremony, making peace under
760 Natural Law. I guess you would say what they consider to be in a place where
761 they're closest to heaven.

762

763 **TW: Will the people of Kingdom of Manna be part of that ceremony?**

764

765 **MM:** [?] and all of our team members will be there as well.

766

767 **TW: Good stuff. Right. We're going to cover some things that are related more to**
768 **the people, we will call this the people issues. The first thing I want you to**
769 **address is, there's many people in the alternative community who think this**
770 **freedom and obtaining our sovereignty, and a whole heap of things, taking**
771 **back our souls and everything else, is largely played out on the internet. Like**
772 **it's some sort of virtual reality game. But our team has faced some serious**
773 **issues recently, with the team being fired at, issued death threats, apparently**
774 **from prominent entities in this country and beyond. And also abduction**
775 **attempts. Can you address some of that please?**

776

777 **MM:** I understand a lot of members of the alternative community know that there's
778 something wrong. And knowing that there's something wrong is half the battle. But
779 the system is very large, very deep and very infiltrated. So, I caution anyone, and
780 this is just a matter of my own personal opinion. This has nothing to do with
781 anybody telling me anything about what to say or what to do, but I caution people
782 very heavily on filing papers and these types of things and renouncing citizenship

because it really doesn't make a difference for you own self, personally and the health and welfare of your family at this time. As I said, we are over two million team members strong worldwide, and these are some very strong people, but have chosen to join within the team to do their part because everybody does a part. And there is no superiors or hierarchies in our group although we do have organizers and leaders. The intention, and leaders are always at the bottom, they're not at the top. The top [?] empowers the people, and not the other way around.

But I caution people again acting in this way is only because, you know for example, we had some team members that were in a location and due to the Paris Treaty, Climate Control Treaty. There's one clause in the hundreds of pages within that treaty which does not go into effect until 2020, I'm going to make that very clear. For anybody listening, that agreement does not go into effect until 2020. Regardless, the UN had claimed control over all in-ground resources of every nation that had signed that agreement. Well, you know, first of all the UN is not a sovereign. They were only ever a sub-sovereign underneath the main sovereign which was always controlled on D Level. The Families are under the impression that they control the UN, which they pretty much do. So, how does that effect the nations? Well, it really doesn't when you look at the larger picture we've been discussing today.

So, the UN is a wonderful meeting place which cannot sign a treaty because a treaty takes place between two sovereigns. So, the fact that when they initiated the Paris Treaty was long after the UN had lost its sovereignty because the main sovereign dissolved that. I'm not really sure why they're signing a treaty at all. So, they can be a keeper of records and a meeting place for nations but legally, that treaty is not enforceable.

Nonetheless, this group of people happen to go to a particular area of the world where there are assets, in-ground assets, and within minutes, the United Nation's vehicles started rolling in their direction with kill orders for the occupants in the vehicle that was sitting in the wrong land. And when questioned about it, because, of course, the authorities of this particular nation came and defended its citizens who were there, who had not a clue that any of this was taking place. When questioned by the local authorities, they basically had stated that the UN has the right to defend its own land. So, these little subcenters of the UN started popping up right about the time they started initiating the signing of the Paris Climate Control Treaty.

Now, irrespective of a signed agreement, which is not a treaty. And irrespective of the nations that signed that agreement, still, the main sovereign Trust holds all of the liens on the in-ground resources that were already collected by the Slave Masters. Do the Families understand this? Obviously not because they're making an attempt to collect the same resources they already collected in days past, you

823 know, given probably not in their lifetime. But you can't lien something that's
824 already liened for the benefit of a sovereign that doesn't exist.

825 So, fortunately enough these people survived. But this is just one incidence. I know
826 of other team members that have had some high orders of people, I think Thomas
827 you call Anne. Anne had sent out kill orders on many people. You're right, some of
828 the stuff that you've said on previous shows about them appointing Pindar after
829 Pindar after Pindar. You can see that doesn't even come into effect until after you
830 pass Slave Master Level, down there at the bottom. And they don't really
831 understand why they don't have access to assets. They don't understand what's
832 happening. So, Anne was promised she would be the Queen of the USA and this was
833 appointed by Pindar. Obviously, none of that is happening. So, apparently Anne
834 went on a vengeance to find the people responsible for that not happening,
835 thinking that that would help. And demanding that this person or these people give
836 some assets to Anne and her counterparties all over the world. There was
837 supposed to be a new Russian Tsar and new different factions around the world.
838 And, you know, two million people is a lot of people and there's a lot of protection
839 around these people now. And that's due mainly to the Kingdom of Manna and to
840 the Warrior and to the Grand Knight that orchestrates security for our people
841 involved including the parties of the Trust.

842 So, this is not an internet thing. Nobody is filing papers on the internet. And people
843 are travelling constantly all over the world. They have very high security. You
844 know, it's a constant battle. I know there's kind of a running joke amongst the team
845 members as to who has the most contracts out on their lives. I think the winner,
846 right now, has 1089 contracts. And, luckily, we haven't lost a team member yet.
847 Although, we've had some team members that had been shot at. We just had some
848 people recovering from bullet injuries. I know that some of the others were beaten,
849 not to mention, threats on their families. We've had to move a lot of people into
850 hiding. You know, everybody sits there and talks about two weeks and green lights
851 and "We're going in" and "We're doing all these things" and "Access your accounts
852 here and there." But nobody is taking any accountability to what actually is really
853 happening.

854 So, if what we were doing wasn't so right we wouldn't be having so much attention
855 from all those that are wrong.

856

857 **TW: Yep. So...**

858

859 **MM:** So, my main concern is for the safety of the members and safety of the people. They
860 shouldn't have to be a part of it. Just because somebody tells them to file some
861 papers.

862

863 **TW:** Yeah. Well, the thing I want to reiterate is people always, I suppose it's part of
864 the Western society where everything's got to happen yesterday. And you
865 must understand I hope this show and some of our previous shows give you a
866 level of understanding of what we're dealing with here. And shows a bit more
867 patience because you're not the ones that are being shot at or looking over
868 your shoulder on a daily basis. You know, it's not fun. But, somebody has to
869 do it. And, thankfully we've got many people who have had the courage to
870 stand up and go "Enough's enough". We're going to actually do something
871 about it. And so, I hope the listeners to this show have a bit more patience
872 going forward. We're rather close to many things. But the safety of the people
873 is the most important thing. Now, there's been a lot of issues with the banks.
874 Not all of them. But there's certain elements of banks, I think our members
875 are more than familiar with the names, who've been acting criminally for so
876 long. And their indoctrination is thorough as a result of that criminality. And,
877 many of them have committed crimes against the people in managerial roles
878 that they're unaware of. It's the same thing again. The compartmentalization.
879 Will there be a retraining facility for bankers and banks to bring them back
880 inside the parameters of what is legal and lawful financial practices?

881

882 **MM:** Yes. That is also, we do have a new agreement. It is not a, how do you say it, they're
883 not employed by the Kingdom of Manna. But there is an agreement with groups of
884 bankers, that believe it or not, existed and co-existed all be it outside the system
885 with the banksters. These people have been quietly working within the system and
886 making their money and making a positive change for humanity when and where
887 they can. And, the origins of some of these groups are very old. Some of them have
888 existed prior to the time of Christ. So, generation after generation have been
889 working quietly outside a lot of the control systems that have existed. All be it,
890 dealing with banks within the control system. So, they are very well versed on all
891 aspects of banking control. They know that because their enemy is their teacher
892 and they, too, have learned from their enemy. So, they have agreed to work
893 together with us and assist the banks in repairing or replacing existing institutions
894 in the future.

895 So, there will be training of people. Part of this new system that is being
896 implemented and [?] regardless of what happens with the [?] has nothing to do
897 with the Queen and they are now working towards an asset-based trading system
898 which they have been well versed on for over a thousand years. So, they're good
899 people. And we're very excited to work together with them. In many different
900 ways. To bring in a positive change in the banking system.

901

TW: So, the new system, I presume, will have mechanisms in place to ensure the financial system and other entities to do with the financials are never under full control of one rogue group ever again? It's going to be more fair and transparent as I understand it.

MM: Absolutely. Each nation should be responsible for its own financial system and its own platform. Which no other nation needs to have access to. So, that platform is a stand-alone platform which communicates with other platforms worldwide for global trade via a translator. So, there's a system which basically serves as a translator between platforms. So, it speaks multiple computer languages. That platform will be monitored by all nations who participate in the new systems. So, we don't really need to start installing country systems in other countries because it's not necessary any more. So, if the nations do need a base cyber platform we would provide that with all the coding and all the firewalls and all the information so they have full and complete and total access. And then they can build upon that platform from there. Or, they can just simply build a complete and total separate system. It doesn't have to communicate. But there's no reason for funds from 140 countries to filter through a building in the United States and then go back out through another country and [?] two to three weeks and sometimes never under today's day and time.

We've lost a number of swifts and a number of wires. And, you know, we've had delays. We couldn't even send an \$85,000 wire somewhere to get a piece of equipment we needed. We worked on that one for over a month and a half. It was ridiculous. Of course, they flag the Kingdom all over the place so that makes life more fun. And the Kingdom fired back with its various systems in place that send notifications and correct intel and data to virtually every country on Earth. So, every time they try to steal anyone's funds, be it ours or yours or theirs, that notification goes out everywhere around the world. So, immediately everyone knows what's happening.

In addition to that, we're very much looking forward to a conversion to an RTGS or a Real Time Gross Settlement System. A Real Time Gross Settlement System is key in increasing global trade. So, in order to release new funds into the banking system, meaning off-ledger funds into on-ledger funds or the use of allocation numbers you must increase the demand for those funds. So, you have to increase the GDP of the nations in order to increase the amount of flow of funds within a system. And money must continuously flow. So, for example, the People's Club is one of those avenues which is direct to the people. But, on a larger scale, being able to settle out on goods and services bought and sold between parties, even within the United States or even from the United States to China or vice versa, will actually dramatically increase each company's ability to produce its goods. So, if you got

942 paid for your goods the second they're delivered then you can order more of your
943 components or parts or raw materials you need to produce your goods
944 immediately without any lag time. Therefore, there's no lines of credit or debts
945 associated with that and companies are able to produce at a much more rapid rate
946 at that point.

947
948 **TW: As we're talking about money. Money kind of goes, or should do, goes**
949 **through six phases and that has kind of been blocked. Can you explain that**
950 **and how it can be redeemed?**

951
952 **MM:** Well, money itself is designed to flow. So, money being held in large accounts
953 somewhere by some guy saying, "I have X amount", doesn't really do anything for
954 the global GDP or the average everyday person. So, if you have an issuance of a new
955 allocation of, for example United States dollars, and those United States dollars go
956 to a company who is building a supermarket. Now, that's one exchange of funds
957 right there. Then, the supermarket has to buy steel and cement and drywall and
958 hire contractors to build the supermarket itself. So, that's another exchange. Then
959 the supermarket is going to buy food and what not to stock its shelves. So, some of
960 that money goes out to trucking companies or train companies or plain companies
961 to source in that food for the supermarket. So, you have another exchange. And
962 then you have the workers who just worked to build the supermarket or any other
963 project then spending that money in the supermarket to buy food for their family.
964 You have another exchange.

965 So, what the old control system tried to do was to control every aspect of all
966 exchanges. So, they considered all people slaves. So, they would control the end-
967 worker's pay, for example. Then of course you have the IRS. And then you have the
968 control over all food sources and of all medical sources and the baby powder you
969 had to purchase and the diaper company and then everything that went in to that.
970 And the steel market and the bridge making market. And so, every single time a
971 dollar would flow out they would collect funds against that dollar. And that is
972 where we have an issue. Because they even claim that the end user, so you as the
973 average everyday citizen who was building a savings account. They claim
974 ownership over that via their banking system control mechanism.

975 So, as you can see what happened a few weeks ago we experienced a number of
976 banking outages worldwide. In Australia, it was Westpac. In the United States, it
977 was JP Morgan and we also had an experience with Bank of America. And what the
978 Family Level was doing, is they had made an attempt to leverage every dime,
979 doesn't matter if it was your Uncle Joe's account or your child's savings account,
980 every dime that was in, for example Bank of America or Westpac Bank and tried to

leverage that out in another currency somewhere. And then they were going to return the base asset. Well, they got declined everywhere they went. And, not understanding, of course, how money actually works. An allocation requires a project. It requires something that you have to pay out on. And, paying out debts owed or promised to various governments or militaries or currency or oil contracts or other things that are talked about sometimes on the internet is not a project. It does not increase your GDP. So, it was declined pretty much everywhere. But, that left the average everyday citizen unable to access their funds. In some cases, days at a time. You know, the people would log in to check their accounts, I know at Westpac Bank in Australia, for sure, and it would say "No balance." I think Bank of America just froze everybody out completely. And I think JP Morgan's website went down. So, you know, they've tried all these routes and it's failing. They may have technical control over the banking institution human that work there, in cooperation with some hackers. But, they don't actually hold the stock options on the banks. Because nobody at D Level would allow the head Slave Masters to have anything. Ever! So, it's a perception. You know, they were just doing their collection job and nothing more. I don't even think the generation now even understands that part. So, yes, they've been very busy.

TW: Yep. It's been reported that the world's GDP has started to plummet from around \$114/\$120 trillion dollars down to something in the 70 range. That's quite a drop. Are there plans ahead to correct this?

MM: Yes. And the RTGS system is one of those things. And then also allowing average everyday citizens to participate in projects which are going to contribute to the Gross Domestic Product or GDP of each nation. So, in part, the reason for the plummet is due to a bank liquidity crisis, in part. There are no more lines of credit. Plus, they've also been syphoning very heavily off of the Swift system and the Reserve system. Whereby it could take two to three days to get a wire from the east coast to the west coast. Or, getting a Swift from outside the country inside the country, depending on the country its being sent from, could take up to seven days to weeks. And, I've seen them put bank holds on them for another ten days. So, this significantly hinders corporations and businesses from doing business.

And, plus they've also done some trickery with the Visa Core system ,the Master Card system. So, even on a small level, even tourism industries are declining because there's only so much food on the shelves of the restaurants. There's only some much people can do. And if you're holding these people's pay for two weeks they can't restock the shelves. And, sometimes they have to close their doors. This is happening in other countries. I know this for sure.

1020 One of the ways, to discuss with the members here, the idea and the creation of the
1021 People's Club was actually a way to funnel people to people, their funds, on a
1022 private level and start from the bottom up and building industries. So, ideas,
1023 companies, even things like providing a neighbor with food or shelter or assisting
1024 giving someone a hand up. Believe it or not, that actually does contribute to the
1025 GDP of the country even in some small way because you're buying food. The food
1026 has to come from somewhere. Even if you're buying it from the Farmer's Market.
1027 It's still making a contribution to the farmers. So, in some small way you're
1028 contributing to the health and welfare of the country by what it is you're doing
1029 while benefiting the average everyday citizens without having to go through a
1030 control mechanism.

1031 The issues and the delays, obviously you've heard about a lot of them, but we're
1032 trying to make sure that this time when the people start receiving funds to grow
1033 businesses and to help neighbors that they actually get to keep it this time. And
1034 there's no control mechanism over how they spend their funds. I mean obviously
1035 there's illegal things that nobody can do, but other than that, there really isn't a
1036 control point about how you grow your business. And nobody is going to shut you
1037 down. So, those structures are crumbling. But it's taking longer. And then, you
1038 know, every time we find ten agreements, ten more pop up. And those need to be
1039 addressed, too, in order to provide safety and security for all the members
1040 participating.

1041
1042 **TW: Yep. So, the issue of an asset-backed currency, or currencies along with the**
1043 **new system, will this prevent any leveraging into oblivion like what's gone on**
1044 **with the current or old system?**

1045
1046 **MM:** Well there has to be a basis. You know from a scientific standpoint the value of gold
1047 does not lie in putting it in a brick an into a vault somewhere. However, it's being
1048 used in the past as a standard, and can be used again as a standard, only from the
1049 standpoint of it's something everybody understands. They can hold it in their hand,
1050 they understand its weight. It's shiny, it's pretty, and they know what it's worth,
1051 right. Because it's a standard. So, the goal is to return to an asset-based trading
1052 system. By returning to an asset-based trading system, there has to be an asset
1053 there in exchange for the pieces of paper you put in your pocket. So, you have to
1054 start with an asset to exchange it for another asset, which is what asset-based
1055 trading is.

1056 So, the hope in the future is to coordinate, well let me kind of backup just one bit.
1057 In the Trust system, in order to break apart the Trust, which is the intention, we've
1058 actually located not only the resources of each nation, to give back to the nation,

1059 but we've also calculated how much currency that particular nation has in
1060 circulation, both in digital and in paper funds, to the best of our ability. And then
1061 three times the GDP of that particular nation which would come out over time.

1062 So, currently if you would call them the Collateral Accounts, they've all been re-
1063 allocated. There is no such thing existing in there anymore as the SwissIndo
1064 people, or any of the Germaine people, or the Elder peoples, or any of these other
1065 folk, they don't exist on any account anywhere. We have shown virtually every
1066 single nation on Earth that this is the case. But they all have allocated enough gold
1067 to cover their current GDP, sorry not the GDP, the current currency in circulation
1068 plus up to three times their current GDP which is available for a project within that
1069 nation. And, that includes increasing trade between nations.

1070 So, you know on a small scale, that makes assets available to places like the
1071 People's Club. On a larger scale, that makes programs like the original Plan of
1072 Experts work. The Plan of Experts has nothing to do with SwissIndo or these things
1073 that you read on the internet. Under the original United Nations charter, it was a
1074 fund which was traded against resources of nations. But it was accumulated with
1075 the purpose of increasing trade between nations. See, because at least you can say
1076 on D Level, they were smart. Because they understood, in order to increase their
1077 global influence, since they controlled virtually every allocation of currency
1078 globally ever in existence. Now, it is under the Trust, which is you know under
1079 different management, but their control mechanism provided for every nation's
1080 allocation. No nation would ever issue an allocation unless it was a standing
1081 allocation without first consulting these Slave Masters down there at the bottom.
1082 And, ultimately, the approval came from D Level.

1083 So, you know it's a misnomer that these families ever controlled any of this. But the
1084 intention there was to actually increase the amount of control worldwide, aka by
1085 the release of additional currencies, of which they controlled all of. So, although,
1086 you know, there was one account that was actually intact but the reason why it was
1087 left intact was actually because it was designed to subsidize trade between
1088 countries. So, for example if a country A is buying cars from Ford, they would
1089 actually pay at 50% of market value in an off-market transaction and the Trust
1090 comes in and supplements the other 50%. So, the car company Ford who was now
1091 getting discount to say government A on their vehicles, they would actually get full
1092 market value for their vehicle which will help them increase their production. And
1093 on the other side, the government is getting even greater discount, so they are
1094 getting 50 cents in the dollar. So that, maybe, some of you will probably notice
1095 some of your local Sheriff Departments, for example, in the US are having vehicles
1096 that are 5-6-7-10 years old. It's nuts because they start at federal level. They start
1097 going to auctions to state level and then they start going to auctions to county level,
1098 and then then get down to the city level. And before you know it, the cars are you
1099 know seven, ten years old, and breaking down. The same thing with police

1100 equipment and all of these other things. So, it actually will bode to assist in another
1101 way increasing the GDP of the countries and the flow of funds and proper
1102 equipment for government worldwide to include pencils for schools. Education
1103 systems will be improved, all due to the Plan of Experts. So, we are going to use
1104 their control mechanism in the reverse. That is the general concept.

1105

1106 **TW: Jolly good. Right, we are going to have another music break and we'll be back**
1107 **in about 8 to 9 minutes. We'll be back with more.**

1108

1109 **<Music Break>**

1110

1111 **TW: Hi all, and welcome back to the final portion of tonight's show. Lots of**
1112 **information to take in there. We have some more for you, some more things**
1113 **to learn and to get a grasp of. This next thing will be new to most of us. And**
1114 **there's a saying that most people say: 'You sell your soul.' Most people think**
1115 **it's a figure of speech, except it's not. Somehow, they legally obtained implied**
1116 **consent over all the souls in here. What is known as the Monarch Law. So, can**
1117 **you give us some details on that please?**

1118

1119 **MM: Sure, I know you've heard a lot of people discuss Cestui Que Vie trust and the**
1120 **Cestui Que Vie agreement. There are three different parts of that [?] to give them**
1121 **rights over your soul. Now, in order to [?] a mark because only [?] can [?]. They put**
1122 **the system in place. They are the only monarchs. So, under this agreement it**
1123 **basically gives them rights over your soul if you do not claim it yourself.**

1124

1125 **TW: Can I just interject a minute. Can you start that again because we had fun and**
1126 **games cutting you out there.**

1127

1128 **MM: Sorry about that. The Cestui Que Vie trust or the Cestui Que Vie agreement had**
1129 **three parts. One of those parts is implied consent over your soul. Only a monarch**
1130 **or a royal monarch can own a slave. Therefore, they appointed themselves the only**
1131 **sovereigns on planet Earth. Therefore, everybody else is subject to slavery. A [?] is**
1132 **one that is implemented by two different things. Number one, a [?] on a certificate**
1133 **agreement, or blood. I know you're [?] both certificates and what not being death**
1134 **certificates. But it also gives you the capacity at that time to claim your property.**
1135 **So, your property is not only the land you own or the money you earned, but it is**

1136 also, by a very small clause in the agreement, your soul. So, due to some
1137 agreements at a very high level, at D Level, and agreements they have made [?].
1138 You know some of you have asked question [?] People [?] their soul. And they
1139 replied no, but we encourage people to sell theirs. So, the consent, the implied
1140 consent, when you do not claim your property, owned by the age of seven, then
1141 somebody does it for you. Therefore, they are very busy collecting souls there. And
1142 also C Level assists with that. Family Level, theirs is a given over and over again by
1143 consent of accepting sin in exchange for personal gain. So, these people running
1144 around exercising the Books of Solomon and other different agreements is actually
1145 not implied consent but is actual consent.

1146 So, yes, this is part of this Cestui Que Vie agreement with the various clauses
1147 contained therein where you are actually dead at the age of 7 because you did not
1148 claim your soul. And of course, nobody knows to do that. Therefore, every bit of
1149 property you have is actually owned by the Trust, including your soul. So, the part
1150 of unwinding the control structures top-down is actually the return of property to
1151 all of the citizens of humanity, all of the citizens of Earth, basically. So, that is
1152 something [?]. So, the internet they're mentioning a lot about [?] and it's not really
1153 written inside the Trust as you may think or as they imply on some of that.

1154

1155 **TW: Yeah. So, there's been a lot of discussion recently, of course the leader of the**
1156 **OPPT and the four year loop. Of course these people were around in 2012,**
1157 **2013, promising people 5 or 10 billion in gold, and basically claiming your**
1158 **estate. Again of course Heather has been now been arrested as part of the**
1159 **Treasury Direct Account stuff as well. Would you have the full story on OPPT**
1160 **and what they were doing, and why these people were being arrested?**

1161

1162 **MM:** Well, something to defraud the US government for money is a federal offense,
1163 number one. Number two, the accounts that they refer to have nothing to do with
1164 the US Government Department of Treasury, not at all, not even a little bit. They
1165 existed before the US existed. So, attempting to syphon funds from the Department
1166 of Treasury is not in any way a factual statement by these people who are
1167 perpetuating the fraud. In having discussions with the Kingdom people, they have
1168 explained that of course these people are getting arrested because the government
1169 on the level of Treasury again, as explained again in the control structure is way
1170 down the bottom, right above the people. So, the thought that anybody in the
1171 Treasury Department has any idea on what you're talking about is a fantasy at
1172 best, number one. Number two, these accounts were never located at the Treasury
1173 Department, you know and obviously this had to do with a lot of different
1174 agreements, nor at the Federal Reserve.

1175 So, the accounts always had existed within the Trust, and the funds traded were in
1176 the Trust. And of course, they had ownership right to do that, as monarchs. And
1177 then, yes, some of the funds were trickling down into what is called social
1178 insurance. And social insurance accounts still were not anywhere near government
1179 accounts. They were more on the Slave Master Level and social insurance was
1180 intended to fund programs that would be helpful to you as a person. Which
1181 actually was more like another control mechanism but it was due to fund public
1182 education, free public education, food stamp programs, government assistance,
1183 access to health care for the poor. And the government was supposed to receive
1184 moneys for these projects that they agreed to, for example in US it's congress, in
1185 the UK it's parliament and in other countries, various, the Duma etc., to disperse
1186 these funds to the people. And these agreements were made well over 100 some
1187 odd years ago. And very little if any went into these programs in comparison to the
1188 amounts generated. So, most of the times they went into other activities which [?]
1189 but it happened and [?] funds or gold or any variation thereto. In a manner of
1190 speaking, well yes. But it's because after the end of [?] the asset base belongs to the
1191 people, to the people of Earth.

1192 Again, money works on supply and demand. The value of gold exists on supply and
1193 demand. And it's just a shiny object. And it happened to be used as the standard of
1194 currencies, basically because it's valuable everywhere. So, it was only hold to high
1195 value because they've stopped the mining of this gold. So, you know again
1196 everything works on supply and demand.

1197 Is there a Treasury account in the United States Department of Treasury or the
1198 Federal Reserve that responds to each person? No, there is not. I caution people,
1199 this is just my own personal opinion, I would caution people on trying to cash
1200 cheques on a government account that doesn't exist. That's considered fraud. So, I
1201 understand probably OPPT's heart might be in the right place. They may have a
1202 very small amount of knowledge on the inner workings of the system. And, you
1203 know this is something we've experienced in a number of locations very recently,
1204 over the last 60 to 90 days where parties that may have worked both at Master
1205 Level or Family Level or the Faction Level or the everyday person. In the case of
1206 these Treasury Accounts and the reason why everybody's talking about now, my
1207 opinion is that it has no access to the Trust at all. And, they have very little
1208 knowledge. And they think that all of the funds return back to all of the people.
1209 Therefore, they're trying to use people while they're still slaves to get their funds
1210 back so that they can then take them out of the banks. So, they've basically
1211 depleted all liquidity of the banks worldwide. There're actually [?]. They're sending
1212 out notifications for people that were owed money, who may or may not have [?]
1213 like it that have done work, don't necessarily agree with the work. But it happened
1214 and they got paid, and got paid with funds that were in the system. They weren't
1215 allowed to take it out. And therefore, they felt like the Trust owes them money

1216 which it technically does because they did do work and they did earn pay. So, for
1217 that reason, they will be paid. But claiming that now it's the time to go find these
1218 people with the Trust and take your money, and doing all this stuff. You know, the
1219 only thing it really did was to give us, the Trust people, an opportunity to explain
1220 the truth to every individual person. So yes, there is money available for projects,
1221 there's money available [?] money available for industry [?]. As you can see it's still
1222 run by supply and demand, if you flood the system with that type of money, it will
1223 be worthless. So, ore, gold or any other commodity, any other item, it could be
1224 sugar, it doesn't really matter. It doesn't work in the world what these people are
1225 portraying. And yes, she encouraged people to defraud the United States
1226 Government and therefore she's ended up back where she probably should be.

1227

1228 **TW:** **Yep. And this is the problem with people with a little bit of knowledge**
1229 **thinking they know stuff. I've covered this on one of the shows. You just**
1230 **cannot find on the internet the levels that's being described in tonight's**
1231 **show. You just can't. There's bits here and there's bits there. But, there's not**
1232 **the full package. People are going out on a whim. Seduced by the promise of**
1233 **wealth. Well, this is what's brought us down. This is how or why humanity is**
1234 **caught in a mess within. Because we're always seeking the next dollar or next**
1235 **pound or next euro. And that's fine if it's to do with your basic needs. But**
1236 **largely, those in the western world, it's more to do with competing with**
1237 **somebody else. And we have to stop it. Because, it's feeding their way and**
1238 **their system. We have to create and implement a new way where everyone**
1239 **has an abundance of the basic needs of life. And a decent lifestyle. Not a**
1240 **wealthy one. You know, because once you break it down, there's very few of**
1241 **us that listen to this show that have any sort of wealth. And eventually they'll**
1242 **take it off you any way. This is the way it works. That's the way the system**
1243 **has always been. The idea that you're going to suddenly become a multi-**
1244 **millionaire or billionaire overnight is ridiculous. You know, the system has**
1245 **worked against us. But now, it's about to change. With that change, we have**
1246 **to be a lot more responsible. Personally responsible for how we carry out our**
1247 **lives and what impact it has on others. We can't carry on with the attitude of**
1248 **"I'm alright Jack and stuff everyone else". That type of competition has to end**
1249 **and we go forward in a better way. And yes, there might be a lot of projects**
1250 **coming up. It's up to you to create those projects. It's up to you to create the**
1251 **new way. The idea of the People's Club is to get everyone caring and sharing**
1252 **for each other, looking after each other. Which is something again us in the**
1253 **western world, not just this country, the whole western world, in general, has**
1254 **stopped caring for each other. And we're on the brink of something that's**
1255 **never been achieved here and it's extraordinary times to be in. Now we're**

1256 **going to go into some politics that will probably pretty much end tonight's**
1257 **show. There's a lot of chatter around two years...**

1258

1259 **[?]**

1260

1261 MM: ...they have part uranium situation. The one most famous for that though was a
1262 lady by the name of Barbie. I'm going to call her Barbie. Barbie had cut the original
1263 deal. And it was in part because both Ann and Barbie are family members. And, the
1264 gold had already been pledged as an asset in the past when the US dollar or Federal
1265 Reserve note was actually on the gold standard. And all nations were on the gold
1266 standard. So, the gold, by agreement, was due to be mined and pledged to the US
1267 government. In support of the dollars and then the dollars would go to the citizens,
1268 right. So, or whatever certificates, or however you want to call them. You have to
1269 be careful of the legal trickery. So, that was the dispersion of gold to citizens. Now,
1270 there are many other minerals which lie in and around gold. And uranium being
1271 one of them. And, yes, these two lovely ladies had cut a deal for some additional
1272 cash from people of another nation. But everybody understands pretty well, now,
1273 from the two nations that that agreement really wasn't valid because the
1274 agreement to manage said assets had already expired by that point.

1275 The BLM is a Department of the United States which is supposed to oversee and
1276 manage the land itself. The assets underneath were pledged to the Trust and
1277 leveraged time and time again. So, there was nothing left to leverage and therefore
1278 the asset base, the US went off the gold standard. Does that mean that it cannot be
1279 fixed? Of course, it can be fixed. But, the Trust will not release the BLM asset base
1280 minerals, mineral base, to anyone other than the US Government. Per agreement.
1281 And that is after the US Government becomes a sovereign unto itself, is no longer is
1282 under the control of any Master Trust, nor any other Monarchs other than,
1283 obviously, our Commander and Chief, the President of the United States which is
1284 currently Donald Trump. Contrary to popular belief of Ann and others, he is the
1285 President. Hopefully, those negotiations are taking place.

1286 I've been in negotiations off and on for about six months. Every time the
1287 negotiations get so far, the Family members come forward and say "We've got this
1288 now". And some guy, you know, sits in some chair, special Illuminati chair,
1289 somewhere. And sits there and says he is now the Pindar and we're off and running
1290 again. And then a couple of years go by and the guy realizes that sitting in that
1291 chair is no different than sitting in the lounge chair or foot stool or any other chair.
1292 Then the next one who jumps in and is promised the moon and stars, right.

1293 You know, there were negotiations going on last week. There will be more
1294 negotiations going on this week and the week after with members of the Trust. And

1295 hopefully, we can come to a conclusion that the nation needs to be a nation unto
1296 itself. The asset base is there. It's supposed to be under the management, by the
1297 order of the Constitution, of Congress. God help us. And then, of course, dispersed
1298 by directive of Congress through the Treasury Department. So, that is what the
1299 Constitution reads and that is what is supposed to take place. Hopefully.

1300 There are some educational tools going around. We have some resistance because
1301 the members who no longer have access to assets, including Chinese elders and
1302 otherwise, are jumping up and down claiming they're going to implement some
1303 new currency in the world. Which, you know, maybe they'll be backed by chewing
1304 gum or something else that's prevalent, tea of China, something. And then these
1305 people that hold all these dinars are going to be paid ridiculous sums of money.
1306 And it goes against every rule of macro- and microeconomics existing. So, I don't
1307 really see that happening. But, you know, there's a lot of tea in China. So, you never
1308 know.

1309

1310 **TW: Yeah. The legendary RV, I think they're up to about 1,019 failed attempts at**
1311 **the moment. And counting. One day their stupidity will end and see some**
1312 **common sense and we can all get on with correcting the things that have**
1313 **gone wrong on this planet. And it won't be done by Chinese elders and bogus**
1314 **Dragon groups. No matter what color they are. And it's time that people,**
1315 **some of the top brass people in this country, started acting for and on behalf**
1316 **of this country and its people. They are the ones that count. Not Rothschild**
1317 **and et al. So...**

1318

1319 **MM:** Well.

1320

1321 **TW: Carry on.**

1322

1323 **MM:** Sorry. I was just going to say that we understand. You know, even as citizens of the
1324 nation, we all understand that these Family members have caused great
1325 destruction all over the world. And they put the fear of, I would say God but not
1326 really, but the fear of some entity somewhere into all of these high-ranking
1327 members of government. All 39 levels and we understand that. But remember, love
1328 conquers fear. And, I'm going to be very logical about it. You know, love of country
1329 is also a love. Right. Love of people is also a love. Your family, you love your family.
1330 And, it's been proven that mothers of children have lifted cars and walked through
1331 fire to save their children. And, you know, that fear kind of goes away. And love will
1332 actually, love of your children conquers that fear. And it's the same that I believe

1333 can happen within government. Is that if everybody stands together and there is
1334 nobody, cause these guys are not going to get out of their fancy chair and shot
1335 anybody. They don't get their hands dirty like that. So, if there is nobody left to
1336 shot and everybody is banded together, that unity alone will overcome that fear.
1337 And hopefully mutual honor, loyalty, and respect for one another you know you
1338 really can turn this nation around.

1339

1340 **TW: The people are waiting for you. You know, we're here to support you. We will**
1341 **provide the platform. Just step down. Come and be a part of the real change**
1342 **where we all survive and prosper. So, there's a lot of to'in and fro'in with the**
1343 **Trump cabinet team at the moment. Where is he at and where currently with**
1344 **regards to the American government?**

1345

1346 **MM:** Well, you know. It's my understanding the Kingdom of Manna teams and some of
1347 the Trust teams have some mutual friends. And, for that reason, he's done a sort of
1348 [?] education. And an opportunity to do what he's doing. In other words, he's
1349 calling the fake media the fake media. He's doing things that other Presidents have
1350 not done. Which I think is a really good thing. By the same token, he is [?] in the
1351 right [?] the party that won 1089 contracts. But, he's up there, right now. These
1352 Family members and people you call Cabal members which are basically Family
1353 members to some lesser slave degree. They are at his throat. He's not conforming
1354 to their requests. He is having his associates read laws that contain little clauses
1355 here and there which obligate the United States to another 100 years of slavery or
1356 whatever the clause is. And, he's not buying it. It's the reason why you see all these
1357 fights going on over health care laws and the Paris climate control treaty and now
1358 the sanctions, Russian sanctions. You know there's always just that one or two
1359 liner in there. And everything they've tried to pass by this man but you know you
1360 can say a lot of things positive and maybe a lot of negative things about Trump but
1361 the one thing that he actually is, is he's a second generation pretty good business
1362 man. And a good business man reads every line in every contract ever passing by
1363 their desk before they sign it. So, that might be them personally. It may be their
1364 legal teams. But, he's doing it. And he's trying to protect the country the best that
1365 he can. And you know, he opted for this at this time. So, you know we should all be
1366 thanking our lucky stars as citizens of the world that it is not Hillary.

1367

1368 **TW: Yeah.**

1369

1370 MM: Well yeah, I mean it doesn't matter what country you're a citizen of, we should all
1371 be thanking our lucky stars.

1372

1373 **TW: I know. Trump kind of splits to an opinion. There's no sort of gray area with**
1374 **Trump. People either love him or they hate him. But, whether he's the ideal**
1375 **person or not, if Anna had got in, then bedlam wouldn't be reigning on this**
1376 **soil. Because some of the things she had already implemented or thought she**
1377 **was implementing because she thought she was going to win. It was almost**
1378 **guaranteed. Basically, she had signed America away and its resources. As I**
1379 **understand. And so, you know, I'm not a great lover of Trump. But, if he's**
1380 **doing the right thing, he's doing many right things. Some of the things I don't**
1381 **like. I will say. But, there's an awful lot of pressure being applied from all**
1382 **angles at the moment. With the five different Factions not to happy. They're**
1383 **all fighting each other. And it's not an easy environment to be stuffed away**
1384 **waiting for it to all settle down and see where it all lies. Maybe we all might**
1385 **be a bit more surprised.**

1386

1387 MM: Well, we're all learning. And a President is not God. They are not well versed on
1388 every aspect of what to do and what not to do. And that's going to be a really tough
1389 job for him. You know, the Families are going crazy. The Factions are going crazy.
1390 There's no order to the order. You know, all the way up to the top people are
1391 disappearing left and right. And just like every single one of us, we all get up every
1392 day and try to do the best we can. That's just my own personal opinion. There's not
1393 enough money or power or anything else in this world to get me to sit in that chair,
1394 I promise you. That's a tough job. It's like anything else. This is a democracy and
1395 we're entitled to our own opinions and that's why we all are supposed to be able to
1396 vote. Everybody has an opinion. No one knows what's going on up there really
1397 behind closed doors. But, I think everybody is trying to do the best they can. And
1398 maybe he's not as politically correct at some other heads of state but you got to
1399 hand it to him he's standing in there and he haven't lost yet. So, that's good.

1400

1401 **TW: NATO seems to be a big issue politically at the moment. Of course they, if I'm**
1402 **not mistaken, that was also roped in with the Paris Climate Treaty. I suppose**
1403 **we also have to include the Rothschild Family with NATO as well?**

1404

1405 MM: Well, and this is a rumor. We'll leave it at that. The rumor has it that the American
1406 Families, and I'm not referring to military families or average every day families,
1407 we're really talking about Rothschild Families here, have an intention of closing up

1408 shop in America, after they bankrupted it and moving to Norway in which they'll
1409 have their own private army, which is no longer the US military. It will actually be
1410 NATO. So, they [?] control over the world's largest military force known as NATO.
1411 And they are trying to grant sovereignty unto itself. And apparently the new home
1412 for them will be Norway and they will be running NATO. Doing what, I'm not
1413 exactly sure because even the resources that NATO could possibly acquirer for
1414 them have already been leveraged.

1415 So, there comes a point where they're not asking themselves "and then what?".
1416 They keep executing on these Swiss cheese plans with so many holes it would
1417 make Swiss cheese envious. And they never get to [?] you know starting your day
1418 and forgetting to brush your teeth and put on pants. Everybody's got a plan when
1419 they walk out the door. I know I need few things like car keys, check book, credit
1420 card. You know, I go through this list every day when I leave the house because I
1421 have so many things going on in my mind. But, these people are forgetting some
1422 really big components to having a successful day.

1423 But, that is the rumor that that is the plan. NATO has been very busy on trying to
1424 collect money from nations that do not have it to give, number one. And, number
1425 two, it's an insult to every allied nation's military that in the face of an enemy that
1426 they [?] together with their current military force and their current military
1427 equipment and defend that nations against a foreign enemy. I don't why you would
1428 need duplicate military bases in places like, and this is a matter of my own
1429 personal opinion, but why would you need a duplicate base say in Germany. It has
1430 its own military. It's had its own military for many, many years. Why do they need
1431 a NATO base there, too? Same thing here with the United States. The United States
1432 is has got more bases all over the world. Why would they need a third party entity
1433 to help them do their job?

1434 So, it's very consistent. It's like double dipping. It's like the only thing you can come
1435 to the conclusion is under the Cestui Que Vie Agreement and other agreements like
1436 that in subsequent agreements they feel the need to have their own military force.
1437 Which is actually a good sign for the United States of America because that must
1438 mean that the US military is no longer carrying out their orders blindly any more.
1439 That's all I can guess as a matter of personal opinion. Well, they're trying to do the
1440 control over NATO to collect resources that they already collected a long time ago
1441 and pledged to another third-party entity and they have nothing.

1442

1443 **TW: So, we've covered recently on this show about them raiding and you**
1444 **mentioned earlier about they've raiding JP Morgan trying to empty the assets**
1445 **accounts and the Bank of America issues. And there's also reports coming in**
1446 **that they've now started raiding the accounts of all the Cabal banks. Or**

1447 **known as the Cabal banks. But also high level Families/Cabal members. And**
1448 **this is to me is a sign of desperation. Is that correct?**

1449

1450 MM: Well, sure. In order to keep their well-oiled corporate structure in place you have
1451 to feed the structure. Well they don't call pork, you know there's a term, a
1452 government term or a term in lobbyist community about you have to pay the pork.
1453 Right. Well, that's a nice way of saying something else. So, any way, you have to
1454 feed the structure. You have to keep the structure working. If the lights go out at
1455 CNN, who's going to delve out fake news. And, because there really is no more
1456 money, they're starting to syphon money out of their own corporate structure at
1457 such a rapid rate the corporation can't produce enough funds to account for the
1458 loss. They're claiming that all these corporations were funded by them. Which is
1459 not true. And they're claiming they own all these corporations. And they are
1460 draining even the Seven Sisters, as I understand it. Seven Sisters being the seven
1461 largest oil companies to which all other oil companies are subsidiaries of. So, I've
1462 heard rumors about that. I've heard rumors about them draining funds from
1463 Turner Industries and CNN. I've heard them draining funds to the point where
1464 these people couldn't even make payroll at times. So, yeah, they've drained all the
1465 governments pretty well. The ones that will adhere to their plea, I guess, or have
1466 been able to attack them with cyber-attacks.

1467 They've been unsuccessful at certain places. Therefore, they put sanctions on these
1468 places. So, that then they have the right to take back all their "US dollars" which
1469 they claim to own. They claim it is not US currency it is theirs. It's a very odd world
1470 up there. When we say we've learned a lot from, our enemy is our greatest teacher.
1471 When you start getting past D, T, C Level and even Master Level, Slave Master
1472 Level, to an extent or Family Master, whatever you want to call them. You get past
1473 that point and you start getting down into the Family Level and unless I'm trying to
1474 really define the definition of insanity then we really haven't learned anything
1475 from these people. So, most of the teaching came from above that because
1476 otherwise you're getting really into the definition of insanity, right now. Like, oh
1477 well we need to release seven Quad into the system. Seven Quad in what currency?
1478 Well, USD. I'm like okay, well how are we going to support that? It's going to be
1479 worth less than the dinar you're trying to exchange. They don't understand what
1480 I'm talking about. So, just forget it.

1481

1482 TW: **I kind of explained to our members how flooding the system with any sort of**
1483 **funds and out of those two figures mentioned, of somewhere in the region of**
1484 **\$170 trillion and then another one \$80 trillion. It beggars belief they're going**
1485 **to one country. It's like you say, they are un-sane. You run out of absolute**

1486 **words to describe the levels of stupidity that they are prepared to go to keep**
1487 **a hold of the system that's already failed. And it has failed.**

1488

1489 MM: Well, they spent all this money. It's not like it came out of the system and at the
1490 time there were plenty of assets and contracts and global trade and what not going
1491 on. And it's simply been spent. With no access to the accounts and dealing all of the
1492 black magic and money magic and whatever they're doing behind the scene. It
1493 doesn't work anymore. It just doesn't work. And they're going to continue doing
1494 this probably until the end of days. In our opinion, at least in my personal opinion,
1495 it would be more fruitful and important to work with the government level on
1496 down in fixing the planet. We have 8 billion people ready to go to work. Ready to
1497 do whatever it is their passion is and whatever it is they love to do. And I think
1498 that's all we really need. I don't really think we need any other levels or anybody
1499 else and I think that if everybody can just get along and respect our differences and
1500 embrace our likeness we can all get along just fine and start fixing this planet.

1501

1502 TW: **Absolutely. Hear, hear. Well it's going to be the final question for tonight's**
1503 **show. Because I know many people who want this question asked. We always**
1504 **ask the tricky questions on this show. What is the status of or for the funding**
1505 **for the People's Club?**

1506

1507 MM: Well, again. We need a bank in the United States that can take the funds. And we
1508 also need enough protection in place to were the members can keep the funds and
1509 then use the funds right. So, we have a severe problem we've been working on, you
1510 know, in regards to Fedwire systems and other things. You know, money is going
1511 missing all over the place. So, I would like to say it will be two weeks. But, I also
1512 know our teams are very good at what they do. I know they are working very, very
1513 hard. And I do anticipate it being very soon. We wish it was sooner. We were
1514 hoping it was going to be in our first round of negotiations which were taking place
1515 six to eight months ago. Whereby things seemed to be going very well and then the
1516 Family jumps back in and their Paris Treaty didn't go the way they thought. Or
1517 their leveraging of other country's assets didn't go the way they thought. And then
1518 they came back and said "Oh, we're going pay you all this time". And then they
1519 talked to the Treasury Department and this department and all the people they
1520 have in everywhere and then we're getting final from United States banks. I
1521 promise you, we are all doing the best that we possibly can. I know the Kingdom of
1522 Manna people are plowing through everything they can. Legally, politically,
1523 banking, cyber, and they're doing a great job. I applaud them and all the members
1524 of the team.

1525

1526 **KM:** **Yes. Final word.**

1527

1528 **MM:** Well, nothing to fear but fear itself. Fear is a created emotion. It did not exist in our
1529 world until the control structure started to take place. Remember, love will always
1530 conquer fear. And be kind to one another. It doesn't take money to help another
1531 soul. It takes time sometimes, a little extra effort, going that little extra mile. We
1532 need to take care of each other. Money is not going to solve all problems. There's
1533 still a mentality of people wanting to point fingers at the government or point
1534 fingers at these other groups and Families and what not. They're just all people.
1535 They're all beings. Everybody came from the same place. They are not to be
1536 worshiped as Gods. We're not to worship each other as Gods. But we're all equals.
1537 And a lot of us are all struggling with the same thing. Everybody's been lied to.
1538 Everybody is tired. But just remember, helping one another is a start. Coming up
1539 with businesses that will help other people, that will provide people with good
1540 clean food and all the things that we all desire. Just remember, do it from your
1541 heart. Do it from what you're passionate about. Because you're going to do it with
1542 full success and it's not even going to feel like work to you. Just really take care of
1543 each other. Stay in faith. There may be a point in time when the Kingdom people
1544 may call upon you to help the country or help your neighbor. You don't have to be
1545 strong and you don't have to be able to shoot a gun to make that happen.
1546 Everybody is important to make their contribution.

1547

1548 **TW:** **Well, we thank you for giving us your time. Reading some of the comments,**
1549 **everyone really enjoyed it. Hopefully now, the members and the people who**
1550 **listen to this show and the other people who were listening for the first time**
1551 **see where we've been, where we are and where we intend to go. It's**
1552 **important that we all come together. It's important that we exercise patience**
1553 **because you've listened tonight to a whole heap of structures that have been,**
1554 **in essence, a sixteen and a half thousand-year structure that in essence has**
1555 **been collapsed to the point of no return within a decade. It is unprecedented.**
1556 **There's so many different levels to it and there's so many different things**
1557 **that need to be fixed and worked upon. Somewhere in the region of 500**
1558 **different elements to it. And all have to be in a row and lined up and nailed**
1559 **down. All the legal work as to be done. And all of the negotiations have to be**
1560 **done. And in the meantime, people are facing threats themselves and the**
1561 **groups. So, I hope all listeners now have the full picture of what is taking**
1562 **place here. Because this is probably the best time ever on this planet to be**
1563 **alive on this planet. It mightn't feel like it to certain people as people are**
1564 **struggling in different ways. But boy are we in for a fun ride going forward.**

1565 **We are close. We will prevail. And we will all go forward on this planet in a**
1566 **better way. And we've had to absorb over the many, many thousands of years**
1567 **of their control. But we must create a system that's better than theirs. Not**
1568 **replicate it. This is where the Cabal, as we call it, failed. They failed to step**
1569 **into the void that was left by the higher control system. Which is all**
1570 **collapsed. They couldn't do it. They failed. We have to step into the void of**
1571 **their failure and go forward towards a brighter future.**

1572 **If you lead life in love and care, you will prevail. If you lead life in fear and**
1573 **anger, you will fail. Feel free for you to be the person you wish to be, not the**
1574 **person who conforms to what others want you to be. You are a**
1575 **multidimensional being operating simultaneously on many levels. You are**
1576 **not here to conform. You are not here to be stifled. You are not here to be**
1577 **enslaved. And you are not here to be abused. Or to compete with your**
1578 **friends, families, or neighbors. You are here to be the best you can be and do**
1579 **so as the crown of creation.**

1580 **Now go out with the confidence of who and what you are. And excel in**
1581 **yourself and in doing so inspire others.**

1582 **Everything you ever wanted is on the other side of fear.**

1583 **This has been a special show of the Truth, Honor and Integrity. My name is**
1584 **Thomas Williams. By for now.**
